Dear Regent Pillen,

I am happy to find opposition to CRT at UNL. The just published book "American Marxism" spells it all for our country if this issue among many others is not defeated. Attached is a brief response. Please let me know if this response is suitable before I forward it

Thank you,

Don J.

University of Nebraska-Lincoln

I am in full agreement with Regent Jim Pillen. Critical Race theory is “factually and morally wrong”. The fact is, as Martin Luther King stated “I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character”. Academic freedom has nothing to do with this resolution. Long term implications regarding academic freedom is a concern if this resolution is not adopted.
