To the Board of Regents
University of Nebraska

As a Nebraska alum (BA 1971, MA 1973), I ask you to defeat the resolution in opposition to Critical Race Theory. Not only would passing this resolution put the Board of Regents in the position of attempting limit faculty free speech, it would announce to the country/world that the University of Nebraska should promote the idea that American history (including slavery, Jim Crow era, Civil Rights activism, inter al) was somehow un-American!

Please vote against this resolution & support free speech.

Thank you.
