Subject: Resolution on CRT

Non-NU Email

As a mother of a highschool Junior and was possibly looking at University of Nebraska I am urging you to vote against the CRT resolution. I would expect at the university levels that my child would be exposed to new ideas and not stifled.

The resolution reeks of nationalism. So what is that telling students that attend from foreign countries? This vote could very well determine my child's university attendance.

I get treated at UNMC ... likewise I may rethink my clinic options. We want the University to be a place of open discussion and welcoming to all students. If you were a private institution yes but this has no part in the University of Nebraska.
