Subject: CRT resolution

Non-NU Email

Whereas the proposed Critical Race Theory resolution makes no honest attempt to positively define Critical Race Theory and

Whereas a University's goals include to promote critical thinking and

Whereas the Governor is using you to score political points

Be it resolved that this UNL alumnus and former Regents Scholar expects that the Regents will properly and decisively oppose the CRT resolution, continue to abstain from doing insane things like banning material or burning books, and generally carry on with the intellectually honest promotion of higher education in the State of Nebraska.

Seriously, the resolution is an embarrassment.

-Matt Heller, UNL 2003
