

# Habitat for Humanity Homes DO NOT Affect Property Values

Area 1 Home Values

Area 2 Home Values

★ Start of The Great Recession

★ First Habitat for Humanity Home completed

We compared home sales in two residential areas in Mableton.

Area 1 contains no Habitat for Humanity Homes.

Area 2 contains 51 Habitat for Humanity Homes.

Home values began to decline in 2007 for both areas, likely as a result of The Great Recession. The first Habitat Home was completed in 2008.

Home values began to rise again in 2012 for both areas, despite the presence of 2 large Habitat for Humanity developments in Area 2.
