Emergency blood, platelet shortage persists as patient needs continue over holiday season

As many prepare to celebrate Thanksgiving and look ahead at a busy holiday season, the American Red Cross encourages eligible donors across the country to harness their humanity by giving blood or platelets in the coming weeks.

As a result of low blood donor turnout in recent months, the Red Cross is heading into the holidays with its lowest blood supply in more than

a decade at this time of year.

The ongoing effects of COVID-19 and a summer spike in delta variant cases significantly challenged the nation's blood supply heading into the fall.

The pandemic also resulted in fewer blood drives at schools and colleges, contributing to a 34% drop in new blood donors from last year — one of the largest year-to-year decreases and

one that could threaten essential medical care for patients. Locally, the Minnesota and Dakotas Red Cross Region has experienced a 25% decrease in new blood donors this year.

Humanity needs you to help patients enjoy all the holiday season has to offer.

Make an appointment to give blood or platelets as soon as possible by using the Red Cross Blood

Donor App, visiting RedCrossBlood.org or calling 1-800-RED CROSS (1-800-733-2767).

The regional American Red Cross Blood Donation Center is located at 1301 W. Saint Germain St., St. Cloud.
