Haymitch (we call him Mitch for short) is a precious 2 year old male tabby. He enjoys the companionship of other cats and he's currently housed in our kitty kottage free roaming with several other kitties. He can be a little shy when meeting new people but is a sweet boy. Consider meeting Mitch at our shelter and spending some time with him.

Gin

This week, A Forever Home Animal Rescue is featuring Gin, a 9-month-old male Lab mix weighing approximately 50 pounds.

"He came from a high kill shelter along with his litter. He is a sweet, lovable little guy with beautiful markings with a white stripe up his tan nose. He is friendly, playful, very energetic and lovable. He gets along well with his siblings but has not been cat or child tested. He pays rough and likes to play bite, he needs more training in this area. He is not trying to hurt anyone; he just plays hard," A Forever Home Animal Rescue says.

Gin's adoption donation is \$200, which includes his neuter, puppy vaccinations and microchip. He is heartworm negative and on monthly preventative medicine.

"He really wants a home, so please come to meet this adorable guy," the shelter says.
