

Johnson Heating & Cooling

223 N. Callahan Road • Wentzville

(636) 332-4141

johnson-heatingandcooling.com

Johnson Heating & Cooling installs dependable, high-quality furnaces, air handlers, air conditioners, heat pumps and geothermal systems, and its technicians perform service and maintenance on all brands. They also install air quality products such as humidifiers and electronic air cleaners. Clean-and-checks ensure homeowners' heating and cooling systems are operating at peak performance. Family owned and operated, the business is run by Tracy and Shaun Johnson. Shaun has over 24 years in the industry and a Journeyman License in several counties. Tracy is vice president, handling all aspects of customer service. Both make it a goal to educate customers and provide the most comfortable and quality systems available, installed and serviced by trusted professionals.
