

## ***Live your own best life***

**The Watermark at St. Peters** is a unique senior living community where adults live their lives in their own style. The grounds feature 13 acres of beautiful walking paths, lake areas and courtyards. The community features lovely villas and independent living arrangements in comfortable apartments with full-service amenities in a warm and welcoming community.

If you crave all the services and benefits that come with living in a vibrant retirement community but love living an on-the-go lifestyle in your own private home, the Villas provide the best of both worlds. With their spacious, light-filled open floor plans, full modern kitchens, garages with remotes and backyard patios, residents have everything they

need with none of the upkeep for lawns or home maintenance.

Or choose Independent living in the Town Center in a bright, cheerful one- or two-bedroom apartment that features a kitchen and shower, with the benefit of a private dining room available for family events and celebrations and scheduled local transportation services to shopping, appointments and entertainment.

Both residents of the villas and apartments are able to enjoy Chef prepared meals at our new Café, beer, wine and cocktails at the bar and a social club to complement our fine dining restaurant, the Hawthorn Grill. Amenities include family and game rooms, private movie theater, indoor heated pool, fitness center, salon, spa, courtyard, nature paths, and gazebo overlooking the pond. In addition, enjoy a dynamic calendar of programs, classes, events and outings and caring, trained staff members available at the community and through the Watermark at Home Program.

Take advantage of the opportunities to connect, engage and thrive. Schedule a tour and start planning your best life today!
