

Helping seniors celebrate their best life

One of the greatest benefits of **Assisted Living at the Meadowlands** is its size.

"Our community is one level with no elevators to navigate, so residents and staff get to know each other and form friendships," explained Executive Director Abby Farley. "We often hear that our common areas feel like home, and to me, that's a tremendous compliment."

"In addition, we are a pet-friendly community, because no one wants to leave their pet behind."

The Meadowlands offers assisted living and memory care services, with a solid leadership team with over 84 combined years of experience working with seniors.

"Our residents enjoy amenities such as housekeeping, laundry, restaurant-style dining and a robust Life Enrichment program full of on-site activities and regular outings included in their stay. Other amenities include on-site physical, occupational, and speech therapy services, a full-service beauty salon and transportation services.

Montessori Moments in Time™ is parent company Meridian Senior Living's comprehensive approach to memory care. It was developed through extensive research and first-hand experience with Meridian residents throughout the years. The program integrates purpose and meaningful moments into the lives of residents diagnosed with Alzheimer's or dementia, while providing support to their families and caregivers.

"Our memory care neighborhood offers a secure environment with supervised access to amenities and specialized care by our highly trained and compassionate staff," Abby said.

With the assistance of a friendly support team, the possibilities at The Meadowlands truly are endless. Learn more by scheduling a tour today.
