

Continuing a tradition of excellence

Roy and Tim Field, owners

When brothers Tim and Roy Field purchased Kaminski's Home Furnishings at the end of last year, they knew that they would be keeping some of what made the family-owned business a local favorite. And they knew they'd be adding their own spin – namely their combined experience in the flooring industry.

For 40-plus years, Roy has owned and operated All Surface Flooring in St. Louis County. Tim spent 30-plus years as a Mohawk Flooring representative. With so much knowledge to share, it only made sense to transform the large business site in Jonesburg, west of Wentzville on I-70, into **Field Furniture & Flooring**.

Tim and Roy have kept the long-time and extremely knowledgeable employees, as well as the hard-working and genuinely caring delivery staff. And of course, they have kept a wide variety of furniture. It's in the name.

Customers also can shop Field Furniture & Flooring for updated appliances to make life easier in the laundry room and kitchen, and a wide selection of Serta and other mattresses.

"We have 25 mattresses on display that customers can come in and test," said Tim. "Because we have the ability to stock a large inventory, many of our pieces can be purchased and carried home the same day. But if delivery is preferred, we can do that as well. We'll even haul away the old appliance or mattress and box spring."

When it comes to flooring, Field Furniture & Flooring's knowledgeable staff can help customers select products that will work in their home, or better still, the company's professional installers can do the work to precise manufacturer's specifications. Professional installation is the best way to guarantee the manufacturer's warranty.
