

A personalized plan for every student

At **EYC Academy**, they realize that every student's journey is different, and learning isn't one-size-fits all.

Created by a team of experienced educators, EYC Academy opened its doors in 2018 to bring a non-traditional school experience to students. EYC removes barriers to success by offering a personalized plan for every student and supporting their individual academic, social and

emotional needs in a safe environment.

The day school program for grades 6-12 gives students greater one-on-one access to teachers, small groups, remote flexibility to recover after illness or significant life events, the ability to self-pace, writing and tutoring support, college planning, a national diploma and career certificate program and more.

EYC Academy works in partnership with families and schools, navigating an array of learning environments together. But it goes beyond academics. Their wraparound services support the full student. They help align additional resources, such as counseling or therapy, should a student need it.

Every student — no matter their age, background, or circumstance — has a place at EYC Academy and creating a safe space for them to learn is their main priority.

Just because every student's path to success is different it doesn't mean they should have to walk it alone.

Enrollment is ongoing for full- or part-time students, and a nationally approved digital curriculum allows the school to deliver services anytime and anywhere. Families from districts state-wide can choose to attend EYC virtually through the MOCAP (Missouri Course Access Program).
