

Let our family take care of your family

The Johnson Family, owners

When it comes to your family's heating and cooling needs, trust the family at **Johnson Heating & Cooling**. This family-owned and operated business, launched in 2013, is a passion for owners Tracy and Shaun Johnson, who graduated high school together in Wentzville.

"I've been around the industry since I was 5 years old, and it's in my blood," said Tracy. Her parents owned a local HVAC company for more than 30 years. "Shaun and I got into the business years ago and we share the same passion and work great with each other."

Johnson Heating & Cooling installs dependable, high-quality furnaces, air handlers, air conditioners and heat pumps in new construction homes and existing homes. They also perform service and maintenance on all brands of equipment. The Johnsons' goal is to educate customers and provide

them with the most comfortable, high quality systems available.

Shaun takes pride in all aspects of the company's workmanship. With over 25 years in the industry and a Journeyman License in several counties, Shaun's honest, respectful approach has gained respect from both builders and homeowners. Tracy handles all aspects of customer service and internal office affairs. Her friendly, caring personality brings as much cheer to their office as it does to customers.

"Our employees have been with us all these years!" Tracy declared. "We are one big family all sharing the same passion of wanting to provide a family-friendly HVAC company to our customers. We strive to provide the best service we can that you can trust and rely on."
