

# Experience a 153-year legacy of education excellence

**Assumption School O'Fallon** has been a leader in education for over 153 years! The school is known for its rigorous academic program, state-of-the-art campus and safe and nurturing environment – and enrollment is open to students of all faiths.

"Every parent wants to give their child the best education they can," explained Nancy Gomer, communications and marketing director. "So do we. Our classroom sizes are small; our students consistently

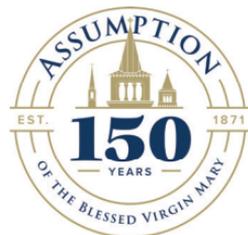

exceed learning expectations in math and reading; and we offer tuition assistance."

The school has an 10:1 student-educator ratio, access to 1:1 technology, gifted programs with learning consultants, STEM, Spanish and extracurricular clubs and activities. There's also a counselor and therapy dog on campus.

In its separate Early Childhood Learning Center, students benefit from a creative curriculum and hands-on X-STREAM (science, technology, religion, engineering, art and math) classroom. Preschool and kindergarten students receive the same educational excellence as the elementary-level students. Drop off begins at 7 a.m. and early-arriving students are supervised at no additional cost. After-school care is available until 5:30 p.m. for a nominal fee.

When the school year ends, summer camps begin! A variety of two-day and weeklong adventures during the months of June and July await those who are pre-registered. But the time to act is now.

"Open enrollment is underway now," Nancy said. "We invite parents from all over the area to schedule a tour and 'Grow with Us!'"
