

KIM BARKS

Owner

“We make adventures stress-free!” That’s a statement Kim Barks takes seriously. For 25 years, Kim has worked alongside her father, Bob, who founded the auto body and automotive company 52 years ago. Their combined experience is why vehicle owners trust

Complete RV Service & Body Work for pre-season inspections, pre-trip and post-trip maintenance, repairs, towing, bodywork and painting, and parts and accessories.

“We also sell RVs and provide storage,” Kim said. “We’re your one-stop shop for all your RV needs! We work on any year, make and model. We also work on warranty and insurance claims, providing estimates that our customers can trust.”

Kim is an RV owner, so she knows first-hand the importance of having your vacation vehicle ready to roll when the road calls. Complete also provides automotive repair and bodywork, so tow vehicles also benefit from the company’s highly skilled technicians.

“All of our technicians are certified to uphold the highest standards of workmanship and care, giving our customer’s peace of mind,” Kim said. “With 15 service bays and two professional paint booths, we are well-equipped to work on all makes and models of RVs, fifth wheels, travel trailers, horse trailers, food trucks, cars and tow vehicles.

“One of the things I’m most proud on is our ability to ensure prompt care and our focus on value and trust. From the minute we meet you, we treat you like family!”
