

Your one-stop shop for home service needs

Mid River Newsmagazine readers know **Faszold Heating & Cooling** as an honest, reliable heating and cooling contractor, as well as where to find the solution to the Sudoku puzzles in every edition.

"While we are well known for heating and cooling, Faszold also offers plumbing and electrical services," explained Briana Britt, general manager. "In all four areas, Faszold is known for providing outstanding customer service."

Faszold Heating & Cooling is part of the Classic Aire Care family of brands.

"Across our brands, we take great care of our customers and our employees," Briana said. "We're so excited to have won the Top Workplace Award* for the third year! We know that happy employees exceed our customers' expectations."

The company offers a 100% guarantee on installation and service, because "what we do should exceed your expectations," Briana said.

"We take pride in the fact that we can get to someone the same day they call and figure out what's wrong with their heating or cooling system, and we'll be back the next day if they need a replacement," she added.

To keep units running at peak condition and extend their lives, Briana said it's important to have a professional check your equipment every year.

"Having a contractor that you can partner with and trust can give you so much peace of mind," she said. "It's reassuring to know the condition of your system and the options available to you in the coming seasons."

"There's a lot of new technology coming out with communicating equipment, with Wi-Fi thermostats that you can control on your cell phone, with monitoring systems that can report back to a contractor like Faszold if systems begin to fail. For convenience and savings, these systems are well worth looking at."
