

With over 30 years' experience researching, reviewing, and selecting Top Doctors, Castle Connolly is a trusted and credible healthcare research and information company. Our mission is to help people find the best healthcare by connecting patients with best-in-class healthcare providers.

Castle Connolly's physician-led team of researchers follows a rigorous screening process to select top doctors on both the national and regional levels. Its online nomination process is open to all licensed physicians in America who are able to nominate physicians in any medical specialty and in any part of the country, as well as indicate whether the nominated physician(s) is, in their opinion, among the best in their region in their medical specialty or among the best in the nation in their medical specialty. Then, Castle Connolly's research team thoroughly vets each physician's professional qualifications, education, hospital and faculty appointments, research leadership, professional reputation, disciplinary history and if available, outcomes data. Additionally, a physician's interpersonal skills such as listening and communicating effectively, demonstrating empathy, and instilling trust and confidence, are also considered in the review process. The Castle Connolly Doctor Directory is the largest network of peer-nominated physicians in the nation.

Physicians selected for inclusion in this magazine's "Top Doctors" feature may also appear online at www.castleconnolly.com, or in conjunction with other Castle Connolly Top Doctors databases online and/or in print.

Castle Connolly is part of Everyday Health Group, a recognized leader in patient and provider education, attracting an engaged audience of over 82 million health consumers and over 900,000 U.S. practicing physicians and clinicians to its premier health and wellness digital properties. Our mission is to drive better clinical and health outcomes through decision-making informed by highly relevant information, data, and analytics. We empower healthcare providers and consumers with trusted content and services delivered through Everyday Health Group's world-class brands.

soar on with **Wisconsin's** **#1 heart care**

We live for the moments that move us. The big ones. The small ones. The ones that light up our hearts and keep us coming back for more. At Aurora Health Care, our heart and vascular team is trusted to make more moments possible. With breakthrough treatments only found here and the region's top-ranked heart program, we're the first choice of referring physicians and patients.

Enjoy more moments that move you.

Orthopaedic Hospital of Wisconsin. OHOW we care. We always start with, "What is best for the patient?" Our three critical success factors - Quality, Patient Satisfaction, and Staff Satisfaction - are achieved through care and communication. We are thankful for our wonderful physician staff. OHOW is proud that the people who lead the care, make the decisions.

Modern Healthcare
**Best Places
to Work 2023™**

Recognized as leaders in delivering compassionate care

Congratulations to all Ascension Wisconsin Top Docs who have been recognized as leaders in delivering personalized, compassionate care to all they serve. The doctors you know and trust at Ascension Wisconsin hospitals, clinics and sites of care are continually recognized as leaders in diagnosis, treatment and research.

We are honored to work beside the recognized providers and all the talented caregivers who have helped shape our health system by providing compassionate care to the Milwaukee and the surrounding communities. Because when it comes to the health of you and your family, it's more than caring. It's our calling.

Listening to you, caring for you.®

ALWAYS PUTTING PATIENTS FIRST SEEMS TO ALWAYS PUT OUR SPECIALISTS ON THE LIST OF **BEST DOCS.**

On our first day of work, we signed a pledge, promising to put patients at the center of everything we do. That patient-centered focus created a process and culture that leads to better patient outcomes every single day. Some days it also earns recognition, like being counted among the best doctors in Milwaukee.

Recognition like this is confirmation that MOSH specialists are delivering high-quality care and that we made the right choice in putting patients first.

Doing more to unlock innovation

By focusing 100% on kids and everything they need to be healthy, doctors at Children's Wisconsin are unlocking innovation in more ways than you might imagine. From vaccines and wellness visits to personalized cardiac therapies and cutting-edge cancer treatments, our doctors are doing more, pushing forward and going beyond.

Congratulations to the 98 Children's Wisconsin doctors who made the Top Doctors in America® list. Your unwavering passion to care for kids is an inspiration for our patients, families and the communities we serve.

Kids deserve the best.

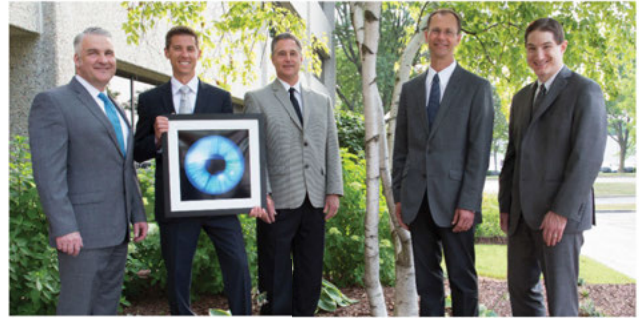

See the best you can see, when you see Wisconsin's leaders in ophthalmology.

EYE CARE SPECIALISTS

World-Class Care. Local Convenience.

Your vision is priceless. When you or a loved one need anything from a comprehensive eye exam to emergency treatment for a retinal tear, you want a team you can trust. Since 1985, our specialists have shared their knowledge and skills to ensure you of qualified, 24/7 coverage. And, unlike some doctors who come to do surgery here but then head back home to another state, we're local residents with a commitment to the community — distributing over one million free eye disease factsheets and booklets, writing columns for local publications, and holding continuing education conferences for area eye doctors. This dedication and expertise are just two of the reasons why our team members are consistently voted "Top Doctors" by our peers.

Brett Rhode, MD Daniel Ferguson, MD Michael Raciti, MD Daniel Paskowitz, MD, PhD David Scheidt, OD

Medical, Surgical & Laser Services for Every Need. Trusted by over 200,000 doctors & patients.

Doctors Worth Knowing profile

Alex Colque, M.D. Plastic Surgeon

Dr. Alex Colque is a board-certified plastic surgeon of the face and body at Alex Colque Plastic Surgery. After completing his training in Houston with plastic surgeons who invented the silicone breast implant, Dr. Colque brought his aesthetic skills and expertise to southeastern WI. He has also written chapters on breast surgery in medical and surgical textbooks.

As the medical director of Skiin, a state-of-the-art anti-aging lounge, Dr. Colque is pleased to bring an integrated approach to complete facial and body rejuvenation. Dr. Colque offers cool sculpting for non-invasive body contouring and ThermiVA and Emsella for non-invasive female rejuvenation. Skiin is also a national training facility for cool sculpting. After many years of research and development, the Skiintelligence IQ skincare line was launched.

As a plastic surgeon, Dr. Colque believes surgical and nonsurgical enhancements should not alter the qualities that make each patient unique but rather

highlight the beauty that already exists in each individual. He specializes in Mommy makeovers, including tummy tucks and breast lifts. He is committed to using the most advanced techniques to achieve your cosmetic and reconstructive goals in a comfortable environment. Dr. Colque and his staff work closely with his patients to provide individualized treatment plans with beautiful, natural results.

Make a complimentary cosmetic consultation today!

Dr. Scott Arbit

Board Certified Orthodontist

For over 30 years, Wisconsin has trusted Dr. Scott Arbit to provide quality and compassionate care for their orthodontic needs. He has successfully helped thousands of patients to achieve the healthy, long-lasting and attractive Smiles they have always wanted.

Dr. Arbit is a board-certified orthodontist, an achievement obtained by a small percentage of orthodontists. He continues to train and study with top researchers and educators in the fields of TMJ, orthodontics, Invisalign and maxillofacial orthopedics.

Dr. Arbit offers shorter treatment times, fewer office visits and improved comfort with rewarding results. Using a technology-driven 3D orthodontic process to produce a total experience which is easy, fast and accurate, Dr. Arbit makes his patients smile. As a leader, Dr. Arbit serves as President Elect for the Midwest Society of Orthodontists and has served as President of the Wisconsin Society of Orthodontists and the Wisconsin Society of Dentistry for Children.

REPRODUCTIVE SPECIALTY CENTER

Reproductive Endocrinology, Infertility & Minimally Invasive Gynecologic Surgery

Maximize results with excellence in individualized care.

Grace Janik, M.D.

Reproductive Endocrinology, Infertility, Gynecologic Surgery

Dr. Grace Janik, a subspecialist in Reproductive Endocrinology and Infertility (REI) and Minimally Invasive Gynecologic Surgery (MIGS), enables her to offer excellence in a wide variety of services to improve and retain fertility as well as treat complex gynecologic problems. She did her fellowship in REI at Michael Reese Hospital/University of Illinois and started the IVF program at the Reproductive Specialty Center (RSC) in 1990. It quickly became nationally recognized by US News and World Report and ranked 3rd in "Top 10 Clinics for IVF." She has lectured and operated extensively throughout the world, making Reproductive Specialty Center a destination for minimally invasive gynecologic surgery, especially endometriosis, tubal disease, fibroids and uterine anomalies.

Dr. Janik's career has been devoted to high quality, individualized patient care as well as advancing the field nationally through research, advocacy, and education. Locally, she has been the site director at Ascension Columbia St. Mary's Hospital for OB/GYN and MIGS and has trained over 200 OB/GYN residents and 8 MIGS fellows.

Well published and highly regarded and recognized in her field, Dr. Janik is committed to providing excellence in individualized care to treat infertility and challenging gynecologic disorders.

- Pelvic pain
- Endometriosis
- Fibroids
- Adenomyomosis
- Tubal disease
- C-section scar isthmocele
- Intrauterine scarring
- Adhesions
- Uterine and vaginal anomalies
- Infertility
- Full spectrum fertility treatment
- In vitro fertilization (IVF)
- Intrauterine insemination (IUI)
- Tubal reanastomosis
- Ovulation induction
- Egg and sperm preservation
- Male factor infertility
- Vasectomy and vasectomy reversal
- Varicocele
