

With over 30 years' experience researching, reviewing, and selecting Top Doctors, Castle Connolly is a trusted and credible healthcare research and information company. Our mission is to help people find the best healthcare by connecting patients with best-in-class healthcare providers.

Castle Connolly's physician-led team of researchers follows a rigorous screening process to select top doctors on both the national and regional levels. Its online nomination process is open to all licensed physicians in America who are able to nominate physicians in any medical specialty and in any part of the country, as well as indicate whether the nominated physician(s) is, in their opinion, among the best in their region in their medical specialty or among the best in the nation in their medical specialty. Then, Castle Connolly's research team thoroughly vets each physician's professional qualifications, education, hospital and faculty appointments, research leadership, professional reputation, disciplinary history and if available, outcomes data. Additionally, a physician's interpersonal skills such as listening and communicating effectively, demonstrating empathy, and instilling trust and confidence, are also considered in the review process. The Castle Connolly Doctor Directory is the largest network of peer-nominated physicians in the nation.

Physicians selected for inclusion in this magazine's "Top Doctors" feature may also appear online at www.castleconnolly.com, or in conjunction with other Castle Connolly Top Doctors databases online and/or in print.

Castle Connolly is part of Everyday Health Group, a recognized leader in patient and provider education, attracting an engaged audience of over 82 million health consumers and over 900,000 U.S. practicing physicians and clinicians to its premier health and wellness digital properties. Our mission is to drive better clinical and health outcomes through decision-making informed by highly relevant information, data, and analytics. We empower healthcare providers and consumers with trusted content and services delivered through Everyday Health Group's world-class brands.

Doing more to unlock innovation

By focusing 100 percent on kids' and adolescents and everything they need to be healthy, the MACC Fund Center for Cancer and Blood Disorders at Children's Wisconsin is unlocking innovation in more ways than you might imagine. From cutting-edge gene therapies and personalized integrative medicine care plans to genetic screenings and survivorship support, we are doing more, pushing forward and going beyond — every step of the way.

Congratulations to the 20 Children's Wisconsin doctors on the Top Cancer Doctors® list. Your unwavering passion for improving care for kids is an inspiration for our patients, families and the communities we serve.

Kids deserve the best.

Alex Colque, M.D.

DR. ALEX COLQUE PLASTIC SURGERY | SKIIN

As a board-certified plastic surgeon specializing in cosmetic surgery of the face and body, Dr. Alex Colque brings state-of-the-art and advanced techniques to his patients in the Milwaukee area and from around the country. Through his vast skill set and expert surgical precision, Dr. Colque is able to enhance the beauty that exists in you.

Dr. Colque is also the medical director of Skiin, the Milwaukee area's national-award-winning, full-service medical spa and anti-aging lounge. Skiin received the National Medical Aesthetics Award of Excellence and offers the exclusive Skiinsider membership program. Under Dr. Colque's direction, Skiin is also the first and only national training center for CoolSculpting, the most state-of-the-art, non-invasive body fat reduction treatment.

Dr. Colque and his staff work closely with patients to provide individual treatment plans for beautiful, natural results, and consultations are complimentary.

Is your PAIN Neuropathic?

If so, it is important to find out WHY your nerves are degenerating.

DISCOVER THE LATEST BREAKTHROUGH THAT CAN RELIEVE PAIN AND NUMBNESS CAUSED BY NEUROPATHY

If you are experiencing debilitating pain, numbness and tingling, they are likely caused by Neuropathy. Peripheral Neuropathy is a common condition that affects 70 million Americans and, once identified, can be successfully treated without the use of drugs and surgery.

Consultation & Nerve Scan by Board-Certified Neurologist

• Functional Movement Assessment • Thermal Imaging • Report of Findings •

**Non-Surgical, Drug Free Personalized
Treatment Plan to Address your Specific Needs**

Medicare Approve, and Covered by Most Insurances.

FEDERAL AND MEDICARE RESTRICTIONS APPLY.

New patients tell us our neuropathy program is, "much more comprehensive" & "much more affordable" than the other programs in the area.

Stop Suffering!! Feel Better!! Get Stronger!! GET STARTED TODAY!!

CALL 262-785-5515 to Get the Help that's Right for You
