

Fishing, farming, and ranching is an important source of food and nutritional security throughout the Marianas. For many, it is a source of income.

Such practices have been passed on from generation to generation and is an important part of our culture and indigeneity. Fishing, farming and ranching create important ties between families and individuals as well as strengthening ties to our environment.

The BOOST Fishers, Farmers and Ranchers program is designed to promote food and nutritional security, protect and promote traditional cultural practices, as well as to diversify and revitalize the economy for those engaged in commercial activity.

BOOST funds are extended to fishers, farmers, and ranchers who produce for sale and trade. A BOOST subsistence stimulus up to \$500 is available for applicants who fish, farm or ranch for personal consumption.

Terms and conditions apply. Subject to the availability of funds.
