School is Considered Category 1 (Red Zone) - 95% Capacity Threshold Reached

Functional Capacity: Functional Capacity better reflects the actual space constraints a school may be experiencing and helps in planning for individual facility needs, such as additional support spaces. This number can fluctuate depending on how a facility is programmed and when various support programs change.

***Modified ADM:** The number does not include students in certain special education classes and students attending various academic programs such as Academy for Arts, Science & Technology, Academy for Technology & Academics, or the Therapeutic Learning Center.
