Policy File: JC

Watertown School District 14-4

SCHOOL ATTENDANCE AREAS

The School Board will determine attendance areas for the various schools of the district, as recommended by the Superintendent. In recommending boundary lines, the Superintendent will take into consideration the best use of school facilities, the equalization of enrollments in classrooms, natural barriers, and traffic hazards and patterns. Except as the foregoing factors influenced boundary lines, the areas established should permit each student to attend the school nearest his/her place of residence.

Students are expected to attend the school in the area in which they live. Families may use the Intra-District Enrollment process as established by the Superintendent. Intra-District Enrollment requests are reviewed by the Superintendent, or designee, and are fulfilled as allowed by available district services and space at individual school buildings.

The Superintendent shall, at the minimum of every five years, review the established boundary lines and bring any recommended changes to the School Board for their consideration.

School Board Policy JCA shows a color-coded map of the elementary school attendance areas. This map will be updated if there are changes to the attendance areas when they are reviewed by the Superintendent.
