- 6th Sweeping - July 16
- 7th Sweeping - July 30
- 8th Sweeping - Aug 13
- 9th Sweeping - Aug 27
- 10th Sweeping - Sept 10
- 11th Sweeping - Sept 24
- 12th Sweeping - Oct 1

Secondary Roadways:

- 1st Sweeping - May 4 & 5
- 2nd Sweeping - June 1
- 3rd Sweeping - June 29
- 4th Sweeping - July 27
- 5th Sweeping - Aug 24
- 6th Sweeping - Sept 21

Important Sweeping Information

- The sweeping is designed to avoid conflicts with regular scheduled garbage pickup days.
- Please refrain from parking on the roadways during their scheduled day(s) to be swept.
- Initial cleanup (1st sweeping) takes longer due to the sand that is spread on the roadways during the previous winter season. The schedule reflects this.
- Primary roadways will be swept at any time due to no parking being allowed.
- Secondary roadways will be swept from 7 am – 5 pm and may be swept on the same day(s) that are located in (if time permits). Otherwise, they will be swept on Secondary Roadway sweeping days.
- Zone 1DT will be swept from 4 am - 6 am on its scheduled days.
- Zones 2-13 will be swept from 7 am -5 pm on their scheduled days.
- Private streets and parking lots are not swept by the City of Watertown.
- Hard surface alleys and city-owned parking lots will be swept as needed. No schedule is set.
- Changes or suspension of scheduled sweeping may occur due to excessive rain, freezing temperatures, snow, equipment breakdowns, or unforeseen emergencies. Changes will be at the discretion of the Street Superintendent.
- The regular street sweeping schedule ends in October of each year. At that time, leaf sweeping will occur. Sweeping will be focused on areas with heavy leaf accumulation. This will help prevent localized flooding due to blocked storm sewer drains.
- Do not dispose of yard waste (leaves & grass clippings) in the roadway. It is a danger to motorcyclists and a violation of City Ordinance 5.0306.
- Street sweeping is not only to beautify the area, but also to help eliminate pollutants from entering the storm sewer system and contaminating downstream rivers and lakes.
- The City street sweeping schedule will be reviewed each year. Modifications will be made as necessary to meet program goals. This will include scheduling a different zone to start the sweeping in to create a fair rotation.
