CITY OF WATERTOWN

Summary & Description of the Capital Plan 2025-2029

Plan Description

The following plan establishes the intentions of the City of Watertown regarding capital expenditures in future years. Directed by the City Manager, the departments use their missions and goals to plan for future needs of equipment and capital improvements. At the recommendation of the City Manager, the City Council will approve the current plan each year to account for changes in anticipated expenditures as well as updating the years incorporated into the plan. The plan allows the City to see what future budget requirements are expected for capital expenditures. This document is meant to illustrate the City's firm intentions but is not a final word for future budgeting.

Plan Summary

Years 1 through 5 (2025-2029) within this document reflect the long-term CIP as recommended by the City Manager and approved by the City Council.

The plan includes all items that meet the criteria as a capital asset in accordance with the schedule set out below:

▪ Buildings & Structures	\$50,000
▪ Improvements Other than Buildings & Structures	\$25,000
▪ Furniture & Equipment	\$ 5,000
▪ Machinery & Automotive Equipment	\$ 5,000

Overall, the plan includes total estimated Capital Expenditures of \$100,372,300 over the next five fiscal years. The chart below shows the five-year plan by function.

Displaying the Long Term Capital Plan by function allows the reader to see how the expenditures are allocated throughout the City. The table shows that the majority of City expenditures are in the Public Works Function; this would include new streets, sewers and storm sewers as well as the maintenance of these.

The amount of \$51,343,000 or 56% of the total is planned for infrastructure improvements over the next five years. Some of the larger items are as follows:

East Fire Station	\$ 4,500,000
Zoo Improvements	\$ 1,620,000
Cemetery Improvements	\$ 565,000
Street Improvements	\$ 29,750,000
14 th Ave Bridge Replacement – City’s Share	\$ 500,000
Storm Sewer Improvements	\$ 1,750,000
Sanitary Sewer Rehabilitation	\$ 1,320,000
Landfill Cell #8 Design/Construction	\$ 1,738,000
Transfer Location of Airport Antenna	\$ 1,500,000
Replace Runway 17/35 Lights & Sirens	\$ 1,000,000
Reconstruct Taxiway A	\$ 2,000,000
Taxiway B & C Design/Construction	\$ 5,100,000

Plan Funding

The majority of the funding for the long-term Capital comes from the Capital Improvement Fund; this is the “second penny” sales tax fund. The second penny of Sales Tax is deposited into this fund and can be used for specific purposes. Ordinance 16.0107 establishes how these dollars can be spent:

acquisition of land and other land rights, capital improvements, capital equipment purchases, the funding of ambulances and medical emergency response vehicles, the transfer to the special 911 fund authorized by SDCL §34-45-12, the purchasing of fire fighting vehicles and equipment, debt retirement and costs related to the study of or planning for potential capital improvements as determined by the City Council. The City Council, by resolution during the budget appropriation process, may authorize a one-time annual transfer from the Capital Improvement Fund to the General Fund to provide additional needed revenue for the Municipality of Watertown.

The departments within the General Fund along with the Park and Recreation departments receive their funding from the “first penny” of Sales Tax, which is deposited into the General Fund. The Park and Recreation Fund receives a significant transfer from the General Fund during each year’s current budget process. Another funding source is State and Federal Grants, which are used to fund projects throughout the City. The Airport Division of Public Works is able to complete many projects with grant funds.

The Sewer and Solid Waste Divisions of Public Works use fees charged for services to fund the daily operations as well as purchasing new and replacement equipment and capital infrastructure projects.

The Capital Improvement Plan funding summary is separated by revenue type for each of the five years as shown below.

Equipment Replacement Plan

Within each department, the five-year equipment replacement schedule (2025-2029) is broken down showing the request and the funding sources for both equipment replacement and new equipment purchases as recommended by the City Manager. This allows the equipment requests to be reviewed within a specific department providing an overall picture of the department needs. The schedule reflects the replacement of equipment based on the average life cycle. Each department has included an estimate for the average life cycle of all equipment.

The five-year Equipment Replacement Plan is shown within each individual department in the next section.

Long Term Capital Plan

Within each department, the five-year Long Term Capital Plan for the City of Watertown (2025-2029) is broken down showing the request and the funding sources as recommended by the City Manager. This allows the project requests to be reviewed within a specific department providing an overall picture of the department needs. The schedule reflects capital infrastructure expenditures in future years. Departments review their capital project requests and update the anticipated cost along with changes to their operating budget.

The five-year Long Term Capital Plan immediately follows the Equipment Replacement Schedule within each individual department in the next section.
