

Curiosity is where change begins.

Curiosity pushes us to ask harder questions, pursue meaningful research, and prepare students to build a more equitable

future. Through transformative teaching, community-engaged scholarship, and a commitment to equity, the College of Liberal Arts & Sciences creates lasting impact in Champaign-Urbana and beyond.

We work to expand understanding, elevate lived experiences, and advance scholarship grounded in and accountable to the

communities we serve. We honor the Black students, faculty, staff, and alumni whose leadership strengthens our campus and shapes our world.

Black History Month reminds us that progress lives in the work we do every day. In LAS, we are committed to that work and to driving meaningful impact where it matters most.

*Where curiosity
DRIVES IMPACT.*
