STATE OF MINNESOTA, COUNTY OF WINONA

DISTRICT COURT

APPLICATION FOR SEARCH WARRANT

I, Angela C Evans, a licensed peace officer in the State of Minnesota, make an application to this Court for a warrant to search the premises described below, for the property and thing(s) described below.

I know the content of this application and affirm that the statements contained in this application are true based on my own knowledge, or are believed to be true.

I believe that the following described property and thing(s), namely:

- Documentation of location of, or identity of, any and all medical, dental and/or therapy services and/or practitioners for Madeline Jane Kingsbury and/or Adam Taylor Fravel;
- Any and all items that would tend to show the nature of the relationship between Madeline Jane Kingsbury and Adam Taylor Fravel, including, but not limited to writings, documents and photographs;
- Any other items/evidence which may assist in determining the cause and manner of Madeline Kingsbury's disappearance; and
- Photographing and video of the residence, property and items within.

is or are at the premises described as:

465 Kerry Drive, located in the City of Winona, Winona County, Minnesota.

465 Kerry Drive is a single story, light blue colored twin home with white trim. 465 is the unit on the right side, with the numbers 465 on the front of the residence, to the right of the front door, with an unattached, single story, light blue colored shed with white trim and a double door secured with a padlock in the back yard.

located in city or township of Winona, County of Winona, State of Minnesota.

I apply for a search warrant on the following grounds:

- The property or things above-described constitutes evidence which tends to show a crime has been committed, or tends to show that a particular person has committed a crime.

The facts establishing the grounds for issuance of a search warrant are as follows:

Affiant's Background

Your affiant is a licensed peace officer and has been a licensed peace officer in the State of Minnesota since August 1996. Your affiant has worked for the Winona Police Department in various capacities for the past 26 years, including patrol officer, evidence technician, and is currently an investigator assigned to the Criminal Investigation Division. Your affiant has worked in her current capacity since September 2012. Your affiant has investigated this case, discussed this case and reviewed reports of other officers about this case and believes the following to be true, and to constitute probable cause sufficient to support the requested search.

Nature of Investigation

March 31, 2023

At approximately 8:20pm on Friday, March 31, 2023 the Winona Police Department took a report of a missing person. The reporting party ("Reporting Party") indicated that they were best friends with Madeline Jane Kingsbury (Date of Birth: June 1, 1996), who she had not had contact with all day, which she characterized as unusual. Reporting Party went to Kingsbury's residence and did not get an answer to her knocks at the door at 465 Kerry Drive, located in the City of Winona, Winona County, Minnesota. Reporting Party also informed officers that she was aware that Kingsbury was having issues with her significant other, Adam Taylor Fravel (Date of Birth: January 29, 1994).

One of Kingsbury's neighbors ("Neighbor") reported that they she did not see Kingsbury's van in the driveway at approximately 7:00am, but had seen it back at approximately 6:00pm. The van was still in the driveway when officers arrived on scene, as is still there at 12:00pm on April 1, 2023.

Officers did not get an answer to knocks at Kingsbury's door and noted that there were no lights on inside. Officers then spoke with Kingsbury's dad who reported not having had any contact with her throughout the day, explaining that as odd.

Officers also spoke with Fravel via phone. Fravel said he had not heard from Kingsbury since earlier that morning. He reported that Kingsbury was supposed to pick up their children from daycare after she got off of work, however, she did not show up so he went to pick them up. After picking up the children he and the kids went to his parents' residence in Mabel, Fillmore County, Minnesota. Law enforcement knows, based on phone contact with Fravel, an in-person interview of Fravel and surveillance of Fravel's movements, that he has been at that residence the majority of the time since then.

Officers gained access to Kingsbury's apartment and verified that she was not there and noted that the apartment did not look disturbed.

April 1, 2023

On April 1, 2023 Kingsbury's mother and sister ("Sister") came to the Winona County Law Enforcement Center to report that there had still not been any contact with Kingsbury, which was extremely out of character for her. Sister said that she had texted Kingsbury Friday morning and that Kingsbury replied at 8:15am with a response that is typical of Kingsbury. Sister reports sending a second text to her at 8:23am, which went unanswered. Sister said that she and Kingsbury communicated with one another multiple times a day

They informed officers that Kingsbury and Fravel were in the process of splitting up, however, they were still living together. They said that the first night that Fravel hasn't stayed at their joint residence on Kerry Drive was last night, March 31, 2023.

Kingsbury reportedly told Fravel earlier in the week that she no longer wanted to continue with the plans they had to move closer to his parents and change the childrens' daycare, rather, she was going to stay in Winona, keep the children with her and at the daycare they were currently attending and that she was looking for an apartment. It was also known to Fravel, and others, that Kingsbury was currently seeing someone else.

They reported that Fravel was very emotionally abusive and controlling over Kingsbury. He insisted that she was not allowed to speak with her new boyfriend while he was around and demanded to see all text messages between the two of them. Kingsbury told Sister that Fravel had told her, "if you don't listen you'll end up like Gabby Petito".

Officers learned that Kingsbury had also told Reporting Party that Fravel told her, "if you don't listen you'll end up like Gabby Petito".

Gabrielle "Gabby" Petito was reported missing on September 11, 2022 after not returning from a monthslong cross-county trip with her significant other, a case which garnered significant, nation-wide media coverage. Her remains were later located in a national park in Wyoming and it was determined that her death was a homicide. The person of interest in that case was her significant other.

Sister reported that Kingsbury had planned to travel, with her daughter, to visit her in the cities for the weekend and that Fravel was supposed to be taking their son with him to his parents' in Mabel. Both were supposed to be leaving for their intended destinations on Saturday, April 1, 2023, so they were very concerned that Fravel left with both children on Friday, knowing Kingsbury was going to be taking their daughter with her on Saturday.

Officers spoke with the childrens' daycare provider ("Daycare Provider"). She reported that Kingsbury and Fravel dropped the children off together Friday morning, and they arrived in the van, which is typically driven by Kingsbury. She told officers that Kingsbury is the one who typically picks up the children at the end of the day, but that Fravel will if Kingsbury

can't. She explained that Fravel arrived to pick up the children at their normal pick-up time. When asked, Daycare Provider said that she never contacted Fravel, or anyone, in reference to Kingsbury not arriving to pick up the children because Fravel picked them up at their regularly scheduled time. Daycare Provider said that when Fravel showed up to get the children they asked where their mother was. She said that he never answered their question, rather he just said, "we're going to Grandma's house". A review of the daycare provider's ring camera shows both Kingsbury and Fravel arrive at 8:03am to drop off the kids and Fravel arrive alone to pick up the kids at 4:21pm. Fravel can be seen wearing a white jacket, dark pants, a red bomber-style hat and white tennis shoes at drop-off and the same white jacket, a red colored shirt underneath, the same red bomber-style hat, dark pants and dark colored footwear at pick-up.

Reporting Party reported that her significant other (Witness #1) is very close friends with Fravel. Witness #1 and Fravel communicated via text about Kingsbury being missing. Witness #1 reports Fravel as being very frustrated that law enforcement is involved so quickly since he had seen her Friday morning. Witness #1 shared screenshots of his conversation with Fravel from Friday, March 31, 2023, which is detailed, in part, below

- Fravel 9:37pm – "I talked to the police. Who or what prompted you guys to go check at the house? I'm so confused, she hasn't been gone for a day yet so I'm not freaking out but everyone else is"
- Fravel 9:42pm – "So Katie called the police?"
- Fravel 9:44pm – "She was leaving for Farmington in the morning"
- Witness #1 9:45pm – "Yes she did. Weird that no one can get ahold of her."
- Fravel 9:46pm – "Wow that's a little out of bounds of Katie. It hasn't even been 24 hrs and I saw her this morning"
- Witness #1 9:48pm – "Not really when no one has heard from her most of the day. Apparently no one was able to reach you either to at least know you've heard from her. You can't blame people for being worried man."
- Fravel 10:04pm – "Nobody tried to reach me at all until 7pm which was Megan so idk what you mean by that"
- Fravel 10:04pm – "I get being worried. But nobody asked me anything so it's like wtf lol"

An investigator spoke with Kingsbury's work supervisor ("Supervisor") who reported that Kingsbury works at the office on Mondays and Fridays, however, she did not show up for work on March 31, 2023. Supervisor said that Kingsbury did not contact anyone to let them

know she was not coming in to work, which Supervisor said was out of character for Kingsbury. The IT department at Kingsbury's place of employment reported to investigators that Kingsbury last logged into her work system at 7:44am on Friday, March 31, 2023 and had not logged back in after it timed out, which it would have done in the time it took for them to drop the children off at daycare at 8:03am.

Family also told investigators that a friend ("Friend") of Kingsbury's reports that, a couple weeks ago Kingsbury visited Friend in the hospital and told her that if something ever happened to her, "it was Adam".

Pings of Kingsbury's phone on April 1, 2023 reported GPS coordinates of 44.05627, -91.691015, which is the tower located at Service Drive and Sebo Steet in Winona, with an accuracy of 4043 meter radius. Multiple pings returned the same coordinates. Investigators located Kingsbury's phone at her residence during the execution of a search warrant later on April 1, 2023.

Investigators spoke with Fravel on April 1, 2023. Fravel told investigators that he and Kingsbury dropped their children off at daycare and returned home together. Fravel told investigators he played on his laptop in the living room while Kingsbury had breakfast in the kitchen. Fravel reports having left the Kerry Drive residence at approximately 10:30am, at which time he left in Kingsbury's van to move boxes and totes of belongings to his parents' residence, located at 42227 County Road 18, Mabel, Minnesota. According to Fravel, during the trip to his parents' residence he realized he had brought the wrong load of belongings and when he got to Choice, Minnesota, he turned around and returned to his Kerry Drive residence, approximating his arrival at about noon. Fravel allowed investigators to look through his vehicle, a gray Chrysler 200, bearing MN license plate ABN466. Investigators noted two pair of footwear that matched the general description of what Fravel was seen wearing on the Ring video when he picked up and dropped off the children at daycare. Investigators noted several faint scratches on Fravel's forehead, area immediately below his nose and on his neck.

Investigators were able to retrieve business surveillance video in Rushford, Minnesota, showing a van matching the description of Kingsbury's van, to include a sticker in the lower left corner of the back window. The van travels south, on Hwy 43 toward Choice, Minnesota, at 11:56am, and nearly an hour later, at 12:47pm, what appears to be the same vehicle is seen returning, travelling north on Hwy 43 from the direction of Choice, Minnesota. According to Google maps the distance between the business that captured the van on camera and Choice, Minnesota, travelling via Hwy 43, is approximately 11.5 miles, and takes 15 minutes to drive one way.

For reference, according to Google Maps, the distance between the business that captured the van on camera and Fravel's parents' residence, travelling via Hwy 43, is approximately 16.7 miles, and takes 23 minutes to drive one way. Fillmore County deputies, however, have

timed the drive and report that the length of time to drive that distance is dramatically shorter than reported by Google maps.

Pursuant to a search warrant, a Minnesota Bureau of Criminal Apprehension (BCA) agent completed a forensic extraction of Fravel's cell phone on April 1, 2023, and found text messages sent from Fravel to Kingsbury, relevant to the timing of his travel, detailed below. At no time did Kingsbury reply to the messages.

- March 31, 2023 10:29am – Fravel to Kingsbury – “Got gas in van and stuff ready to go. Gonna leave soon. When do you have to leave?”
- March 31, 2023 10:29am – Fravel to Kingsbury – “You just gonna stay home?”
- March 31, 2023 1:33pm – Fravel to Kingsbury – “Umm I’m back and my car is still here? You get a ride or something?”

Also located within the forensic extraction, investigators found a web search, “are dog scratches on face dangerous”, dated March 31, 2023 at 6:51pm.

Investigators executed search warrants for the production of records from Fravel's cell phone provider for geolocation information and found that Fravel's phone last recorded geolocation information on March 30, 2023. Geolocation services can be turned on or off by the user at any time.

Investigators also found that Fravel has four different Gmail accounts on his cell phone. A search of each of those account profiles, in the phone itself, shows that the location services for each account was turned off.

iPhones and iCloud connected devices can keep track of locations the devices have recently been, as well as how often that device visited those locations, in order to learn places that are significant to the user. A user can delete their significant location history at any time. Fravel's only significant location listed was the location of his children's daycare.

Based on the information detailed above, your affiant believes that Fravel went to great lengths to conceal the locations that he visited or traveled after March 30, 2023.

Investigators and BCA agents executed a search warrant at Kingsbury's residence on Kerry Drive and her Chrysler Town and Country van and did not locate her or any obvious signs of a struggle or foul play.

While executing the search warrant at Kingsbury's Kerry Drive residence, Investigators and BCA agents found two cell phones inside of the residence. One of those phones, a black colored iPhone in a black on black leopard print case, was located in a pocket of the jacket Kingsbury was seen wearing in the video when dropping the children off at daycare on

March 31, 2023. The second phone located was a rose gold colored iPhone, with a cracked screen, that was found lying on the floor near an end table.

April 2, 2023

During an interview of Fravel on April 2, 2023, regarding Kingsbury's disappearance, Fravel told investigators that he is "infatuated" with the Gabby Petito case. Investigators asked Fravel where his laptop was located and Fravel said it was at his parents' residence. Fravel asked investigators if they could bring him the laptop because he had to do homework. Fravel later told investigators that the laptop was in the basement of the Mabel, Minnesota residence, where investigators located it sitting on a bed after a consent search of the residence and property.

In reviewing the publically viewable information on Fravel's Facebook account, the intro section reads the following:

- "Studied Computer Science and Engineering at Winona State University"
- "Studied Web Design and Software Development at Minnesota State College Southeast Tech"
- "From Mabel, Minnesota"

A Winona Police Department sergeant spoke with Reporting Party. Reporting Party told the sergeant that Kingsbury had told her that she couldn't deal with this any longer and asked Reporting Party to take care of her children. Reporting Party doesn't know what happened to Kingsbury. Reporting Party wondered aloud if Kingsbury could have done something like jumped off a bridge, checked herself in to a mental health facility or left for a while.

Investigators executed a search warrant at Fravel's parents' residence, located at 42227 County Road 18 in Mabel, Fillmore County, Minnesota. During the execution of that search warrant they collected SD cards from the Wyze cameras located on that property. Later review of those cameras show the following:

- March 31, 2023 at 5:14pm - Fravel parks in the driveway at the Fillmore County property, and is seen unpacking the vehicle and going back and forth from the house.
- March 31, 2023 at 5:19pm - Fravel walks into camera view from the house and goes to the open trunk of the vehicle and removes a garbage bag, that appeared to be full, and places it into a garbage dumpster. Fravel then walks back to the vehicle, shuts the trunk, retrieves items from the front passenger seat and the video stops at 5:20pm

Based on training and experience, perpetrators of homicide, kidnapping and/or false imprisonment may:

- transport deceased or detained individuals to and from various locations in order to hide or dispose of a body or person;
- return to disposed bodies to further destroy evidence or further conceal a body;
- use vehicles to transport evidence away from the initial crime scene to destroy evidence;
- use a vehicle for transportation to purchase items to aid in concealing and/or destroying evidence; and
- use vehicles to avoid detection of their actions by law enforcement.

Pursuant to a search warrant, investigators placed a GPS tracking device on Fravel's Chrysler 200 vehicle in an attempt to track his travels to see if they would lead to Kingsbury's location. Data obtained from the GPS tracking device did not lead to the recovery of Kingsbury.

April 4, 2023

Investigators reviewed surveillance video from March 31, 2023 at Kwik Trip, located at 375 Cottonwood Drive in Winona, Minnesota, which is the closest gas station to the Kerry Drive residence, at .3 miles. While reviewing the video, Investigators found a blue van, matching Kingsbury's vehicle, at the pumps at 10:02am. The rear license plate on the van was MN ABN466, which is the license plate for Fravel's Chrysler 200 sedan. A male subject matching Fravel's description was seen pumping gas in the van.

It should be noted that when investigators located Kingsbury's van at her Kerry Drive residence on both March 31, 2023 and April 1, 2023, it had plates belonging to her vehicle on it with areas around the bolts that hold the plate to the vehicle that were clean and clear of dirt, when the remainder of the plate was dirty.

Also of note is that Fravel's vehicle, when viewed by law enforcement, had plates belonging to his vehicle on it.

Pursuant to a search warrant, BCA agents conducted a forensic extraction of the two cell phones located during the search of Kingsbury's Kerry Drive residence, both of which belong to Kingsbury. A review of the phones, which is still ongoing, revealed the following, in part:

- December 9, 2022 at 3:07:32pm – text message from Kingsbury to Reporting Party reading, "Adam choked me last year and said it was "playful" and I lost it. My dad does not like him"

- December 9, 2022 at 3:08:41pm – text message from Kingsbury to Reporting Party reading, “Yeah. After he joked about me ending up like gabby petito if I don’t learn to “mind”. It wasn’t funny”
- December 13, 2022 at 12:18:40pm – text message from Kingsbury to her dad (“Dad”) – “Also update I agreed to therapy. We both agree that either way it’ll help and I think I need help to figure out my feelings lol”
- February 15, 2023 at 2:24:09pm – text message from Kingsbury to a friend (“Friend 2”), “...We are doing therapy which has been really good...”
- February 15, 2023 at 4:35:40pm – text message from Kingsbury to Friend 2, “...I’s been really nice I’d recommend it to anyone. It’s been helpful so far since Adam and I just have so much traumatic history”
- March 22, 2023 at 5:34:37pm – text message from Kingsbury to her mom (“Mom”) – “And I committed to therapy and making it work so I’m doing my best...”
- March 29, 2023
 - o Texts between Kingsbury and Mom talk of Kingsbury not feeling well, the possibility of her being pregnant and having taken a pregnancy test.
 - o Texts between Kingsbury and Sister talk of Kingsbury not feeling well, the possibility of her being pregnant and having taken a pregnancy test.
 - o Snapchat messages between Kingsbury and Reporting party talk of Kingsbury not feeling well, the possibility of her being pregnant and having taken a couple pregnancy tests.

April 12, 2023

Law enforcement received information from an individual (“Member 1”) who reported being a member of a private Facebook group, titled up Sexy Mamas in which Kingsbury was also a member. Member 1 reported that Kingsbury had posted in the group about her relationship issues over the years and provided screenshots of some of the posts to law enforcement.

In reviewing the screenshots, your affiant found posts between February 2019 and December 2021; several of which Kingsbury refers to her relationship as “toxic”, talks about leaving or trying to leave the relationship and “being disrespected and hurt (emotionally)”.

April 13, 2023

Law enforcement received information from a second member (“Member 2”) of the private

Facebook group, designated for moms, in which Kingsbury was a member. Member 2 also provided screenshots of posts from Kingsbury, some of which were the same as Member 1 provided, as well as some additional posts.

April 18, 2023

You affiant created a case file in the National Missing and Unidentified Persons System ("NamUs") on Kingsbury. According to their website, "NamUs is a national clearinghouse and resource center for missing, unidentified and unclaimed person cases across the United States. NamUs helps investigators match missing persons with unidentified remains to resolve cases and bring resolution to families. NamUs connects law enforcement with tools and resources to resolve missing person cases, including state-of-the-art technology to securely store, share and compare case information with other criminal justice professionals."

Based on training and experience in a prior missing person case, your affiant knows that NamUs collects and stores biometric information, including fingerprints, dental records and DNA, of missing individuals entered into the database. NamUs maintains information on missing persons, unidentified persons and unclaimed persons. Comparisons of the three sets of information are continually run against one another in an effort to identify unidentified remains and clear missing persons cases.

As of the drafting of this document, Kingsbury has been missing for 27 days. If Kingsbury is deceased, the longer she remains missing, the likelihood of needing dental records as a means to identify human remains drastically increases. At this point we are unable to determine where Kingsbury went to the dentist. However, it is generally likely that one would have some type of documentation, such as a billing statement or treatment information, within their home that would reveal the identity of Kingsbury's dentist. That information would lead us to the possibility of retrieving dental records for inclusion in NamUs to aid in identification, should that need arise.

April 26, 2023

Madeline Kingsbury remains missing as of 5:30 pm.

Based on text messages from Kingsbury, detailed in part, above, it is clear that she and Fravel were in couples therapy. It is also clear, based on social media comments by Kingsbury, detailed in part, above, that the relationship between her and Fravel had been tumultuous for some time. At this point we are unable to determine where Kingsbury and Fravel sought therapy, or whether Kingsbury sought individual therapy in addition. However, it is generally likely that one would have some type of documentation, such as a

billing statement or treatment information, within their home that would reveal the identity or location of any therapists. Your affiant also knows that a common method used by therapists is to request clients to document via journaling.

Throughout the investigation, the Fravel family has commented that Kingsbury had been diagnosed with bi-polar disorder, however, her family and friends report that is not the case. Kingsbury herself commented in a text message that she hadn't taken her anxiety medication. Law enforcement intends to attempt to gather all relevant medical and therapy records that would be pertinent to the nature of the relationship between Kingsbury and Fravel, however, identification of the location and identity of those services is necessary and likely only identified via a search of the residence for such documentation.
