Application Page 1 - 9

STATE OF MINNESOTA, COUNTY OF WINONA

DISTRICT COURT

### **APPLICATION FOR SEARCH WARRANT**

I, Heather Holden, a licensed peace officer in the State of Minnesota, make an application to this Court for a warrant to search the premises described below, for the property and thing(s) described below.

I know the content of this application and affirm that the statements contained in this application are true based on my own knowledge, or are believed to be true.

I believe that the following described property and thing(s), namely:

**All personal identifiable information (PII) is associated with the Google user accounts.**

**All stored location data, including precision location data (latitude and longitude) collected from GPS, sensor data from the user's device, data collected from the Internet of Things (IoT), Bluetooth-enabled devices, WiFi access points, cell towers, and Internet Protocol (IP) addresses.**

**All other accounts associated through "cookies" and pixel tags, including accounts other than Google.**

**All assigned unique identifiers linked to browsers, applications, or devices (to include the IMEI, IMSI, GUID, and MAC address) users are associated with even when not signed into the Google accounts.**

**All user server logs for the Google user accounts.**

**All Google Pay information associated with the Google user account.**

**All Google email messages, including drafts and those in the trash**

**All Chrome browsing history is synced with the Google user accounts.**

**All information about the interaction of the user's applications, browsers, and devices with Google services to include IP address, system activity, date/time, and referrer URL of the user's request.**

**All information about the user's activity in Google services includes terms searched for, views and interactions with content and ads, and voice and audio information. To include activity from Web and App activity Google Assistant and Google Home.**

All browser web storage (local storage) associated with the Google User's accounts

All Google access databases and application data caches associated with the Google User's account

All associated cellular provider information for electronic devices associated with the Google user accounts.

All calendar and contact information associated with the Google accounts

All photos to include photos, videos, and albums with associated metadata

All Google Drive information with associated metadata

All Google Keep titles and notes

All Google Hangouts and Chats messages, including attachments such as photos and videos

Google Voice information, including Google Voice basic subscriber information, call logs, forwarding numbers, text messages, and voicemail.

YouTube registration email, Channel ID, display name, IP logs, and account associated with the accounts

Associated with the Google accounts of :

fravel.business@gmail.com,

afravelmkingsbury@gmail.com,

fravelrich@gmail.com,

wisecreekmn@gmail.com.

is or are at the premises described as:

Google LLC  
1600 Amphitheater Parkway  
Mountainview, CA 94043

This search is of records held by an out-of-state corporation, Google, LLC, doing business in city or township of Winona, County of Winona, State of Minnesota.

I apply for a search warrant on the following grounds:

- The property or things above-described constitutes evidence which tends to show a crime has been committed, or tends to show that a particular person has committed a crime.

The facts establishing the grounds for issuance of a search warrant are as follows:

Your affiant, Special Agent Heather Holden, is duly appointed and acting Peace Officer in the State of Minnesota. Your affiant holds a Bachelor of Science in Biology and Forensic Science and a Master of Science in Forensic Computing and Cyber Crime Investigation. Your affiant is a Special Agent with the Minnesota Bureau of Criminal Apprehension. Your affiant's responsibilities include assisting local police and sheriff's departments

with predatory crimes, death investigations, missing person cases, homicides, narcotics investigations, and all other felony-level crimes. Your

affiant has been a licensed Peace Officer in Minnesota since 2007. Prior to working for the Minnesota Bureau of Criminal Apprehension, Your affiant worked as a detective for the Bemidji Police Department, primarily investigating Internet Crimes Against Children and Cyber Crimes. Your affiant has received over 1000 hours of specialized training from numerous agencies, including the Minnesota Bureau of Criminal Apprehension, Federal Bureau of Investigation, United States Department of Homeland Security, Cybersecurity and Infrastructure Security Agency, National White Collar Crime Center, and National Center for Missing and Exploited Children. Your affiant is an FBI Certified Cyber Crime Investigator and Certified Forensic Computer Examiner. Your affiant has drafted and assisted in the drafting of multiple search warrants as well as the execution of those search warrants. Your affiant has received certificates of training in the following areas: Undercover Chat Investigations, Investigative Techniques,

FTK Forensics, Peer-to-Peer File Sharing Investigations, Virtual Currency Investigations, and Access Data Certified Forensic Examiners Program.

Your affiant knows the following information from reviewing reports, the investigation of other law enforcement officers, consulting with other law enforcement officers, and her own training and experience. The following information is not all information known to Your affiant about the case but rather facts that tend to establish probable cause to obtain the information contained on Google servers for the accounts of:  
[fravel.business@gmail.com](mailto:fravel.business@gmail.com), [afraelmkingsbury@gmail.com](mailto:afraelmkingsbury@gmail.com), [fravelrich@gmail.com](mailto:fravelrich@gmail.com), [wisecreekmn@gmail.com](mailto:wisecreekmn@gmail.com).

#### Current Investigation

##### **March 31, 2023**

At approximately 8:20 pm on Friday, March 31, 2023, the Winona Police Department took a report of a missing person. The reporting party ("Reporting Party") indicated that they were best friends with Madeline Jane Kingsbury (Date of Birth: June 1, 1996), who she had not had contact with all day, which she characterized as unusual. Reporting Party went to Kingsbury's residence and did not get an answer to her knocks at the door at 456 Kerry Drive, located in the City of Winona, Winona County, Minnesota. Reporting Party also informed officers that she knew that Kingsbury was having issues with her significant other, Adam Taylor Fravel (Date of Birth: January 29, 1994).

One of Kingsbury's neighbors ("Neighbor") reported that she did not see Kingsbury's van in the driveway at approximately 7:00 am, but had seen it back at approximately 6:00 pm. The van was still in the driveway when officers arrived on the scene, as is still there at 12:00pm on April 1, 2023.

Officers did not get an answer to knocks at Kingsbury's door and noted that there were no lights on inside. Officers then spoke with Kingsbury's dad, who reported not having had any contact with her throughout the day, explaining that as odd.

Officers also spoke with Fravel via phone. Fravel said he had not heard from Kingsbury since earlier that morning. He reported that Kingsbury was supposed to pick up their children from daycare after she got off work; however, she did not show up, so he went to pick them up. After picking up the children, he and the kids went to his parent's residence in Mabel, Fillmore County, Minnesota. Based on phone contact with Fravel, an in-person interview of Fravel, and surveillance of Fravel's movements, law enforcement knows that he has been at that residence the majority of the time since then.

Officers gained access to Kingsbury's apartment and verified that she was not there and noted that the apartment did not look disturbed.

##### **April 1, 2023**

On April 1, 2023, Kingsbury's mother and sister ("Sister") came to the Winona County Law Enforcement Center to report that there was still no contact with Kingsbury, which was extremely out of character for her. Sister said that she had texted Kingsbury Friday morning and that Kingsbury replied at 8:15 am with a response that is typical of Kingsbury. Sister reports sending a second text to her at 8:23 am, which went unanswered. Sister said that she and Kingsbury communicated with one another multiple times a day.

They informed officers that Kingsbury and Fravel were in the process of splitting up; however, they were still living together. They said the first night that Fravel hasn't stayed at their joint residence on Kerry Drive was last night, March 31, 2023.

Kingsbury reportedly told Fravel earlier in the week that she no longer wanted to continue with the plans they had to move closer to his parents and change the children's daycare; rather, she was going to stay in Winona, keep the children with her and at the daycare, they were currently attending and that she was looking for an apartment. It was also known to Fravel and others that Kingsbury was seeing someone else.

They reported that Fravel was very emotionally abusive and controlling over Kingsbury. He insisted she was not allowed to speak with her new boyfriend while he was around and demanded to see all text messages between them. Kingsbury told her sister that Fravel had told her, "if you don't listen you'll end up like Gabby Petito".

Officers learned that Kingsbury had also told Reporting Party that Fravel told her, "if you don't listen you'll end up like Gabby Petito".

Gabrielle "Gabby" Petito was reported missing on September 11, 2022 after not returning from a monthslong cross-country trip with her significant other, a case which garnered significant nationwide media coverage. Her remains were later located in a national park in Wyoming, and it was determined that her death was a homicide. The person of interest, in that case, was her significant other.

Sister reported that Kingsbury had planned to travel, with her daughter, to visit her in the cities for the weekend and that Fravel was supposed to be taking their son with him to his parents' in Mabel. Both were supposed to be leaving for their intended destinations on Saturday, April 1, 2023, so they were very concerned that Fravel left with both children on Friday, knowing Kingsbury would be taking their daughter with her on Saturday.

Officers spoke with the children's daycare provider ("Daycare Provider"). She reported that Kingsbury and Fravel dropped the children off together Friday morning, and they arrived in the van, which Kingsbury typically drives. She told officers that Kingsbury is the one who typically picks up the children at the end of the day but that Fravel will if Kingsbury can't. She explained that Fravel arrived to pick up the children at their normal time. When asked, Daycare Provider said that she never contacted Fravel, or anyone, in reference to Kingsbury not arriving to pick up the children because Fravel picked them up at their regularly scheduled time. Daycare Provider said that when Fravel arrived to get the children, they asked where their mother was. She said that he never answered their question; rather, he just said, "we're going to Grandma's house." A review of the daycare provider's ring camera shows both Kingsbury and Fravel arrived at 8:03 am to drop off the kids, and Fravel arrived alone to pick up the kids at 4:21 pm. Fravel can be seen wearing white tennis shoes at drop-off and boots at pick-up. It should be noted that there was no snow on the ground then; it was raining, and the temperature was approximately 40 degrees.

Reporting Party reported that her significant other (Witness #1) is very close friends with Fravel. Witness #1 and Fravel communicated via text about Kingsbury being missing. Witness #1 reports Fravel being very frustrated that law enforcement is involved so quickly since he had seen her Friday morning. Witness #1 shared screenshots of his conversation with Fravel from Friday, March 31, 2023, which is detailed, in part, below.

Fravel 9:37 pm – "I talked to the police. Who or what prompted you guys to go check at the house? I'm so confused; she hasn't been gone for a day yet, so I'm not freaking out, but everyone else is"

Fravel 9:42 pm – "So Katie called the police?"

Fravel 9:44 pm – "She was leaving for Farmington in the morning"

Witness #1 9:45 pm – "Yes, she did. Weird that no one can get ahold of her."

Fravel 9:46 pm – "Wow, that's a little out of bounds of Katie. It hasn't even been 24 hrs, and I saw her this morning"

Witness #1 9:48 pm – "Not really, when no one has heard from her most of the day. Apparently, no one was able to reach you either to at least know you've heard from her. You can't blame people for being worried man."

Fravel 10:04 pm – "Nobody tried to reach me at all until 7 pm which was Megan so

idk what you mean by that”

Fravel 10:04 pm – “I get being worried. But nobody asked me anything so it’s like wtf lol”

An investigator spoke with Kingsbury’s work supervisor (“Supervisor”), who reported that Kingsbury works at the office on Mondays and Fridays; however, she did not show up for work on March 31, 2023. The supervisor said that Kingsbury did not contact anyone to let them know she was not coming into work, which Supervisor said was out of character for Kingsbury. The IT department at Kingsbury’s place of employment reported to investigators that Kingsbury last logged into her work system at 7:44 am on Friday, March 31, 2023, and had not logged back in after it timed out, which it would have done in the time it took for them to drop the children off at daycare at 8:03 am.

The Family also told investigators that a friend (“Friend”) of Kingsbury’s reports that, a couple of weeks ago, Kingsbury visited Friend in the hospital and told her that if something ever happened to her, “it was Adam.”

Pings of Kingsbury’s phone on April 1, 2023, reported GPS coordinates of 44.05627, -91.691015, which is the tower located at Service Drive and Sebo Steet in Winona, with an accuracy of 4043-meter radius. Multiple pings have returned the same coordinates. Investigators located Kingsbury’s phone at her residence during the execution of a search warrant later on April 1, 2023.

Investigators spoke with Fravel on April 1, 2023. Fravel told investigators that he and Kingsbury dropped their children off at daycare and returned home together. Fravel told investigators he played on his laptop in the living room while Kingsbury had breakfast in the kitchen. Fravel reports having left the Kerry Drive residence at approximately 10:30 am, when he left in Kingsbury’s van to move boxes and totes of belongings to his parent’s residence, located at 42227 County Road 18, Mabel, Minnesota. According to Fravel, he realized he had brought the wrong belongings during the trip to his parent’s residence. When he got to Choice, Minnesota, he turned around and returned to his Kerry Drive residence, approximating his arrival at about noon. Fravel allowed investigators to look through his gray Chrysler 200 vehicle bearing MN license plate ABN466. Investigators noted two pairs of footwear that matched the general description of what Fravel was seen wearing on the Ring video when he picked up and dropped off the children at daycare. Because investigators were trying to develop rapport with Fravel, the shoes were not collected. Investigators noted several faint scratches on Fravel’s forehead, the area immediately below his nose and neck. Your affiant would note that sometime during the course of the investigation, I observed, on other investigators’ bodycam footage of the interview with Fravel, a dog on the porch at Fravel’s parent’s residence in Mabel, Minnesota.

Investigators were able to retrieve business surveillance video in Rushford, Minnesota, showing a van matching the description of Kingsbury’s van, including a sticker in the lower left corner of the back window. The van travels south on Hwy 43 toward Choice, Minnesota, at 11:56 am, and nearly an hour later, at 12:47 pm, what appears to be the same vehicle is seen returning, traveling north on Hwy 43 from the direction of Choice, Minnesota. According to Google Maps, the distance between the business that captured the van on camera and Choice, Minnesota, traveling via Hwy 43, is approximately 11.5 miles and it takes 15 minutes to drive one way.

According to Google Maps, the distance between the business that captured the van on camera and Fravel’s parent’s residence, traveling via Hwy 43, is approximately 16.7 miles and it takes 23 minutes to drive one way.

Pursuant to a search warrant, a Minnesota Bureau of Criminal Apprehension (BCA) agent completed a forensic extraction of Fravel’s cell phone on April 1, 2023, and found text messages from Fravel to Kingsbury relevant to the timing of his travel, detailed below. At no time did Kingsbury reply to the messages.

- March 31, 2023, 10:29 am – Fravel to Kingsbury – “Got gas in van and stuff ready to go. Gonna leave soon. When do you have to leave?”
- March 31, 2023, 10:29 am – Fravel to Kingsbury – “You just gonna stay home?”
- March 31, 2023, 1:33 pm – Fravel to Kingsbury – “Umm I’m back and my car is still here? You get a ride or something?”

Also located within the forensic extraction, investigators found a web search, “are dog scratches on face dangerous”, dated March 31, 2023, at 6:51 pm.

Investigators executed search warrants to produce records from Fravel’s cell phone provider for geolocation information and found that Fravel’s phone last recorded geolocation information on March 30, 2023. The user can turn geolocation services on or off at any time.

Reviewing the forensic extraction of Fravel’s cell phone, which is an Apple iPhone, investigators found no Advertising ID listed. An advertising ID is a unique identifier assigned to a device used to facilitate the sale of customized advertising made visible to the mobile device user based on

locations visited, internet search history, and data from various other sources. A user can change or deactivate the advertising ID at their choosing. In sum, the advertising ID is the key that enables most third-party tracking on mobile devices.

Investigators also found that Fravel has four different Gmail accounts on his cell phone. A search of each of those account profiles in the phone itself shows that the location services for each account were turned off.

iPhones and iCloud-connected devices can keep track of locations the devices have recently been, as well as how often that device visited those locations, to learn places that are significant to the user. A user can delete their significant location history at any time. Fravel's only significant location listed was the location of his children's daycare.

Based on the information detailed above, your affiant believes that Fravel went to great lengths to conceal the locations he visited or traveled to after March 30, 2023.

Investigators and BCA agents executed a search warrant at Kingsbury's residence on Kerry Drive and her Chrysler Town and Country van and did not locate her or any obvious signs of a struggle or foul play.

#### **April 2, 2023**

During an interview with Fravel on April 2, 2023, regarding Kingsbury's disappearance, Fravel told investigators that he is "infatuated" with the Gabby Petito case. Investigators asked Fravel where his laptop was located, and Fravel said it was at his parent's residence. Fravel asked investigators if they could bring him the laptop because he had to do homework. Fravel later told investigators that the laptop was in the basement of the Mabel, Minnesota residence, where investigators located it sitting on a bed after a consent search of the residence and property.

In reviewing the publicly viewable information on Fravel's Facebook account, the intro section reads the following:

**"Studied Computer Science and Engineering at Winona State University"**

**"Studied Web Design and Software Development at Minnesota State College Southeast Tech"**

**"From Mabel, Minnesota"**

A Winona Police Department sergeant spoke with Reporting Party. Reporting Party told the sergeant that Kingsbury had told her she couldn't deal with this any longer and asked Reporting Party to take care of her children. Reporting Party doesn't know what happened to Kingsbury. Reporting Party wondered aloud if Kingsbury could have done something like jumped off a bridge, checked herself into a mental health facility, or left for a while. Reporting Party told the sergeant that she recalled Fravel with an older cell phone with a cracked screen and two pop-sockets on the back. Reporting Party reports not seeing Fravel with the newer phone he provided investigators on April 1, 2023.

#### **April 3, 2023**

Your affiant was provided the following four Google accounts associated with the cell phone Fravel had in his possession on April 2<sup>nd</sup>, 2023; [fravel.business@gmail.com](mailto:fravel.business@gmail.com), [afravelmkingsbury@gmail.com](mailto:afravelmkingsbury@gmail.com), [fravelrich@gmail.com](mailto:fravelrich@gmail.com), [wisecreekmn@gmail.com](mailto:wisecreekmn@gmail.com). . Your affiant preserved all four accounts on that day.

Your affiant located a CashApp account that was associated with Fravel's current phone number and preserved that account also.

Your affiant also preserved a Venmo account associated with Fravel's phone number.

#### **Google Information**

Your affiant knows through training, experience, and reviewing the Google LLC privacy policy the following information:

Google uses GPS, sensor data from the user's device, Internet of Things (IoT) devices,

Bluetooth-enabled devices, WiFi access points, cell towers, and IP addresses to determine the user's approximate and precise geographic location.

Google collects users' search history and website browsing to target ads to specific users. Google assigns unique identifiers linked to browsers, applications, or devices users are associated with, even when the user is not signed in to a Google account.

Google uses "cookies," a small piece of text sent to browsers by a website when a user visits a website. These "cookies" help the website remember information about your visit to the website, such as preferred language and other settings.

Google uses pixel tags, a type of technology placed in a website or within the body of an email, for the purpose of tracking certain activities, such as views of a website or when an email is opened.

Google Collects local storage, such as browser web storage, enabling websites to store data in a browser on a device. When used in "local storage" mode, it enables data to be stored across sessions. This makes data retrievable even after a browser has been closed and reopened.

Google collects user-accessed databases and application data caches; this is a data repository on a device. This can enable a web application to run without an internet connection and improve the performance of the application by enabling faster loading of content.

Google collects user server logs, and Google servers automatically record the page requests made when a user visits a Google site. These server logs typically include the user's web request, Internet Protocol (IP) address, browser language, the date and time of the request, and one or more cookies that may uniquely identify a user's browser.

Google collects information associated with Google accounts termed "personal identifiable information" (PII). This information, provided by the user, personally identifies a user with things such as name, recovery email address, recovery telephone number, billing information, and personally identifiable information.

Google collects information about the apps, browser types/settings, device type/settings, operating systems, and mobile network information, including the carrier name IMEI (or other unique identifiers), and phone number a user utilizes to access Google services.

Google collects information about the interactions of user's applications, browsers, and devices with Google services, including IP address, system crash reports, system activity, and the date, time, and referrer to the Uniform Resource Locator (URL), the address of a resource, such as a document or a website on the internet of the user's request.

Your affiant knows that individuals planning a crime or have committed a crime will often utilize web searches to assist in this criminal activity. Your affiant is requesting the browser history and sear history related to the Google accounts located on the device in Fravel's possession.

Your affiant knows that Google accounts are transient in nature and can be utilized on multiple devices.

Your affiant knows that even if an individual has deactivated location tracking of a Google account, Google will still track the user through anonymized advertising IDs associated with the subscriber. The user may change these advertising IDs but they are still maintained in a database maintained on a server Google has access.

Your affiant knows that individuals participating in this type of criminal activity will have hidden accounts that law enforcement may not know. Your affiant knows that if those accounts are accessed from the same browser as the known accounts, Google associates these accounts through machine and browser cookies.

Based on the previous information, Your Affiant requests the following data from Google, LLC.

**All personal identifiable information (PII) is associated with the Google user accounts**

**All stored location data, including precision location data (latitude and longitude) collected from GPS, sensor data from the user's**

**device, data collected from the Internet of Things (IoT), Bluetooth-enabled devices, WIFI access points, cell towers, and Internet**

**Protocol (IP) addresses.**

**All other accounts are associated through "cookies" and pixel tags, including those other than Google.**

All assigned unique identifiers linked to browsers, applications, or devices (including the IMEI, IMSI, GUID, and MAC address) users are associated with even when not signed into the Google accounts.

All user server logs for the Google user accounts.

All Google Pay information associated with the Google user account.

All Google email messages, including drafts and those in the trash

All Chrome browsing history is synced with the Google user accounts.

All information about the interaction of the user's applications, browsers, and devices with Google services to include IP address, system activity, date/time, and referrer URL of the user's request.

All information about the user's activity in Google services includes: terms searched for, views and interactions with content and ads, and voice and audio information. To include activity from Web and App activity Google Assistant and Google Home.

All browser web storage (local storage) associated with the Google User's accounts

All Google access databases and application data caches associated with the Google User's account

All associated cellular provider information for electronic devices associated with the Google user accounts.

All calendar and contact information associated with the Google accounts

All photos to include photos, videos, and albums with associated metadata

All Google Drive information with associated metadata

All Google Keep titles and notes

All Google Hangouts and Chats messages, including attachments such as photos and videos

Google Voice information, including Google Voice basic subscriber information, call logs, forwarding numbers, text messages, and voicemail.

YouTube registration email, Channel ID, display name, IP logs, and account

associated with the accounts: [fravel.business@gmail.com](mailto:fravel.business@gmail.com), [afraelmkingsbury@gmail.com](mailto:afraelmkingsbury@gmail.com), [fravelrich@gmail.com](mailto:fravelrich@gmail.com), [wisecreekmn@gmail.com](mailto:wisecreekmn@gmail.com).

(End of Page)

I request a search warrant be issued, commanding Heather Holden, SA Joseph Swenson, peace officers of the State of Minnesota, and any other authorized person, to enter and search between the hours of 7 a.m. and 8 p.m. to search the above described premises for the described property and thing(s), and to seize and keep said property and thing(s) in custody until dealt with according to law.

**I declare under penalty of perjury that everything stated in this document is true and correct.**

**Applicant: Heather Holden**

Minnesota Bureau of Criminal  
Apprehension  
Electronically Signed

STATE OF MINNESOTA, COUNTY OF WINONA

DISTRICT COURT

**SEARCH WARRANT**

TO: HEATHER HOLDEN, SA JOSEPH SWENSON PEACE OFFICERS OF THE STATE OF MINNESOTA.

WHEREAS, Heather Holden has this day on oath made an application to this Court for a warrant to search the following described premises :

**Google LLC  
1600 Amphitheater Parkway  
Mountainview, CA 94043**

This search is of records held by an out-of-state corporation, Google, LLC, doing business in city or township of Winona, State of Minnesota for the following described property and thing(s):

**All personal identifiable information (PII) is associated with the Google user accounts.**

**All stored location data, including precision location data (latitude and longitude) collected from GPS, sensor data from the user's device, data collected from the Internet of Things (IoT), Bluetooth-enabled devices, WiFi access points, cell towers, and Internet Protocol (IP) addresses.**

**All other accounts associated through "cookies" and pixel tags, including accounts other than Google.**

**All assigned unique identifiers linked to browsers, applications, or devices (to include the IMEI, IMSI, GUID, and MAC address) users are associated with even when not signed into the Google accounts.**

**All user server logs for the Google user accounts.**

**All Google Pay information associated with the Google user account.**

**All Google email messages, including drafts and those in the trash**

**All Chrome browsing history is synced with the Google user accounts.**

**All information about the interaction of the user's applications, browsers, and devices with Google services to include IP address, system activity, date/time, and referrer URL of the user's request.**

All information about the user's activity in Google services includes terms searched for, views and interactions with content and ads, and voice and audio information. To include activity from Web and App activity Google Assistant and Google Home.

All browser web storage (local storage) associated with the Google User's accounts

All Google access databases and application data caches associated with the Google User's account

All associated cellular provider information for electronic devices associated with the Google user accounts.

All calendar and contact information associated with the Google accounts

All photos to include photos, videos, and albums with associated metadata

All Google Drive information with associated metadata

All Google Keep titles and notes

All Google Hangouts and Chats messages, including attachments such as photos and videos

Google Voice information, including Google Voice basic subscriber information, call logs, forwarding numbers, text messages, and voicemail.

YouTube registration email, Channel ID, display name, IP logs, and account associated with the accounts

Associated with the Google accounts of :

fravel.business@gmail.com,

afravelmkingsbury@gmail.com,

fravelrich@gmail.com,

wisecreekmn@gmail.com.

WHEREAS, the application of Heather Holden was duly presented and read by the Court, and being fully advised in the premises.

NOW, THEREFORE, the Court finds that probable cause exists for the issuance of a search warrant upon the following ground(s):

- The property or things above-described constitutes evidence which tends to show a crime has been committed, or tends to show that a particular person has committed a crime.

The court further finds that probable cause exists to believe that the above-described property and thing(s) is or are at the above-described premises

**(End of Page)**

NOW, THEREFORE, you Heather Holden, SA Joseph Swenson, peace officers of the State of Minnesota, and any other authorized person, are hereby commanded to enter and search between the hours of 7 a.m. and 8 p.m., to search the above-described premises, for the described property and thing(s), and to seize and keep said property and thing(s) in custody until dealt with according to law.

BY THE COURT

ISSUED ON: 06 April, 2023

Judicial Officer: Nancy Buytendorp

Judge of District Court

Electronically Signed

STATE OF MINNESOTA, COUNTY OF Winona

DISTRICT COURT

### RECEIPT, INVENTORY AND RETURN

I, Heather Holden, received the attached search warrant issued by the  
Honorable Buytendorp, on 04/06/2023, and have executed it as follows:

Pursuant to the warrant, on 04/10/2023, at 10:00 o'clock am, I searched the following  
described in the search warrant.

☒ Premises ☐ Motor Vehicle ☐ Person ☐ Device

I have left a true and correct copy of the search warrant (with) (in) (at)

search warrant served through the LERS portal

I took into custody the property and things listed below: (attach and identify additional sheets if necessary)

No data received, an ammended receipt will be filed upone receipt of data

**Check the appropriate:**

- ☐ I left a receipt for the property and things listed  
above with a copy of the warrant.
- ☐ None of the items set forth in the search warrant  
was found.
- ☐ I shall retain or deliver custody of said  
property as directed by court order.

**"I declare under penalty of perjury that  
everything I have stated in this document is  
true and correct." Minn. Stat. 358.116.**

Heather Holden Date: 04/20/2023
