

Panther Project

Career Snapshots

In Careers class, students are beginning to explore the Nebraska Career Model and discover careers that connect with their interests and strengths. Students are creating "Career Snapshots" that highlight a career they are interested in, including what the career involves, the education or training required, working conditions, and

interesting facts about the job. This project gives students the opportunity to explore different career possibilities while learning more about the education and skills needed to reach their future goals.

The mission of Norfolk Public Schools is to prepare all students to pursue their goals for the future.
