

This Week's

Panther Project

Engaging Students with Science

Students at Lincoln Montessori participated in an engaging Science Day on Dec. 19th put on by the Edgerton Science Museum. 2 Rooms were set up for labs. One lab was a Density Tube lab and one was an Owl Pellet Dissection. We also had the gym set up with hands-on science stations that the students cycled through. At the end of the day we had an all school assembly called "Arctic Blast" that demonstrated the states of matter. The students had a great time learning and what a great way to end the school year! Thank you to our PAB for providing this awesome opportunity for our students!

The mission of Norfolk Public Schools is to prepare all students to pursue their goals for the future.
