First and Third Graders Team Up for March Learning Fun

March has been full of excitement in our Westside classrooms as first graders teamed up with their third grade buddies for some fun activities. The buddy activities gave students a chance to work together, create together, and learn from one another.

During the projects, the older students helped guide their first grade partners as they shared ideas and completed their work. The third graders practiced leadership and patience while the first graders enjoyed having a helpful mentor by their side.

Grade level buddy time helps build meaningful relationships across grade levels. Smiles and laughter filled the room as students supported each other and worked as a team.

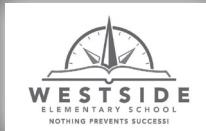

The mission of Norfolk Public Schools is to prepare all students to pursue their goals for the future.
