Celebrating Day 100 with fun

"Bel Air students have been working hard since returning from winter break but they've also been making room for some fun. On January 27th, the students celebrated the 100th day of school by doing many fun activities. Some classes were challenged to build the number 100 out of cookies and different kinds of legos. They were challenged to build a tower of 100 cups or to build party hats out of 100 pattern blocks. Some students also celebrated national Lego day in their classrooms and had the opportunity to let their creation abilities shine through. On the 29th, students performed in their music concert for the year where they shared the importance of music with all of their families and friends."

The mission of Norfolk Public Schools is to prepare all students to pursue their goals for the future.
