Cedartown, GA 30125

SUPPLEMENTAL NOTICE AND DEMAND FOR PRESERVATION OF EVIDENCE

Our Client/Victim/Claimant:	Ms. Hannah Michelle Israel
Incident:	HeeHaw shooting, subsequent "investigation", Purported "The Grady Road Report"; Robert "Bobby" East and others
Incident Date:	August 29-30, 2026, through current
Pending Lawsuit:	Hannah Michelle Israel v. Trenton Ryan Garner; CAFN: 4:26-cv-00270-wmr United States District Court, Rome Division, Northern District of Georgia

Dear Mr. Smith,

This letter supplements my prior *Notice and Demand for Preservation of Evidence* dated yesterday, November 4, 2026. Upon information and belief, we understand your other "sources" for "The Grady Road Report" [in addition to Mr. Robert "Bobby" East] is Mr. Joseph William Turner, a former ex-boyfriend of Ms. Israel (just like Robert "Bobby" East), as well as various family members/associates of Mr. Turner and Mr. East, all of whom Ms. Israel states are biased and have held a vendetta against Ms. Israel. Therefore, the prior demand for preservation of evidence includes of course all of your communications, etc. with Mr. Turner too [in addition to Mr. East and any other undisclosed source and anyone connected to this case] (inclusive of family members/associated of Mr. Turner and Mr. East). We still remain at a loss as to why you did not contact either me or Ms. Israel to get Ms. Israel's response/rebuttal.

Nonetheless, if it is your position that such persons are not your "sources" and/or that you have not previously maintained a familiar relationship with Mr. East and/or his family, please confirm. I also await your response to my prior inquiries, including but not limited to if you will produce voluntarily (i.e., without the necessity of discovery requests, subpoenas, deposition notice, etc.) as separate civil litigation [in addition to the current pending litigation in Federal Court] is forthcoming.

Thank you for your attention and assistance in this matter.

Sincerely,

Christopher McCormick
Attorney at Law
