

# **CADDOCK** *ELECTRONICS, INC.*

Located east of Roseburg on Hwy 138

## **TECHNICAL JOB OPPORTUNITIES**

Caddock Electronics, Inc. supplies the most advanced electronics equipment manufacturers worldwide with our unique high performance resistive product. Caddock has been in business for over fifty years as we have maintained our industry leading technologies. The Company is very stable, is debt free, has about 225 employees, with excellent high tech facilities located on our campus overlooking the beautiful North Umpqua River Valley. Growth at our Roseburg, Oregon operation has created immediate openings for the following positions:

### **MANUFACTURING TECHNICIAN**

This technician will perform a broad range of tasks in the support of production. This includes equipment set-up and process set-up, instructing/training and day-to-day guidance of operators/assemblers, and troubleshooting to maintain the smooth operation of production. Additional responsibilities include the performance of basic equipment maintenance, and preparing written information to support manufacturing instruction documents. The successful candidate will be hands-on, detail oriented and thorough, with good problem solving skills and an ability to work well with others. The preferred candidate will have two (2) years of technical education and one (1) year of technical work experience.

### **ELECTRONICS TECHNICIAN**

This technician must be capable of performing troubleshooting to the component level of electronics equipment, repair and calibration of equipment/instruments, and electronics equipment installation. Must have a good understanding of both digital and analog circuitry. Experience in electronics projects and/or electronics as a hobby are desirable. Having a strong mechanical aptitude is a plus. Must have good problem solving and troubleshooting skills. This position requires electronics skill equivalent to two (2) years of electronics education and one (1) year related work experience.

### **MAINTENANCE MECHANIC**

Responsibilities of this technician include maintenance, repair, and project work on hydraulic, pneumatic and mechanical systems including air compressors, HVAC, refrigeration equipment, ovens, and other production/facility equipment. Successful candidate must have home-improvement hands-on-experience with electrical, plumbing and basic construction. Experience in basic machining and HVAC is desirable. This position requires a good driving record.

**These are full time positions with a competitive wage/benefit package. Qualified candidates should forward their resume or contact our Personnel Department at:**
