District Goals

Our District is committed to providing well-rounded learning experiences for each child and to making each child feel safe and connected to a caring adult while at school. The addition of full-time music and PE programs at each elementary school and expanded elective options at each secondary school will result in higher student engagement, and lower chronic non-attendance. Utilizing transformational social-emotional learning strategies through Conscious Discipline and restorative justice we will create healthy learning environments that foster a climate of safety, caring and respect, and result in improved student academic outcomes.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.
