

PUBLIC SERVICE ANNOUNCEMENT

CITY OF LIVINGSTON DOWNTOWN SQUARE PARKING

**EFFECTIVE
IMMEDIATELY**

**SUBJECT
TO
CITATION
FOR
IMPROPER
PARKING**

- Vehicles parked **OUTSIDE** the marked boundaries of a designated parking space **AND OBSTRUCTING** the roadway will be subject to **CITATION** for improper parking.
- When reasonable and circumstances permit, officers will attempt to locate the vehicle's owner and request that the vehicle be moved before issuing a **CITATION**.
- If the owner cannot be located, a **CITATION** may be issued.

The City of Livingston has been made aware of concerns regarding the size of the parking spaces located in front of businesses on the downtown square. We understand the frustration this may cause and appreciate the public bringing these concerns to our attention.

While the City would like to accommodate larger vehicles by expanding the width and length of the existing parking spaces, we are unable to do so due to state guidelines and requirements that the City must follow.

We recognize that some vehicles, including but not limited to standard-size four-door trucks such as Ford F-250s, Chevrolet/GMC 2500s, and other vehicles of similar size or larger, may not fit entirely within the marked parking spaces. When these vehicles extend beyond the designated parking area and into the roadway, they can obstruct traffic flow and create hazardous conditions for other motorists. This presents a safety concern for drivers, parked vehicles, and surrounding property.

We understand that this situation may be inconvenient for some drivers, particularly those operating larger vehicles. However, these measures are necessary to help maintain safe traffic flow and protect both those parking downtown and those traveling through the square.

We appreciate the community's understanding and cooperation as we work to keep downtown Livingston safe for everyone.

Ray Smith
Chief of Police
