

The Monmouth-Independence Chamber of Commerce has selected MAPS Credit Union in Monmouth as the Chamber Member of the Week.

In 1935 – 90 years ago – a meeting was held at Salem Senior High School. President Franklin Roosevelt had the year before signed into law the Federal Credit Union Act. This law created the opportunity for local investors with common interests or careers to build financial stability by purchasing shares in a credit union.

Marion and Polk Schools (MAPS) Credit Union was created through the efforts of 20 Salem Senior High School teachers who attended that meeting in 1935. They volunteered their time, talents, and limited funds to start a financial institution to benefit educators working in Marion County public schools and Willamette University.

Today, 90 years later, MAPS Credit Union has over 70,000 members and is no longer available exclusively to teachers and school employees. MAPS has grown to provide secure financial opportunities to the entire Willamette Valley.

MAPS Credit Union employees are involved in many local activities, boards, commissions, and non-profits. MAPS' original core mission is strong.

The branch in Monmouth is located at 163 Knox St N. They have a comprehensive web presence, convenient hours, and an efficient drive-through.

The Monmouth-Independence Chamber of Commerce is proud to highlight MAPS Credit Union as the Chamber Member of the Week.

**MONMOUTH INDEPENDENCE
CHAMBER OF COMMERCE**

Building Business. Building Community.
