

SURGERY OF THE MEDICAL COLLEGE OF SOUTH-CAROLINA, QUEEN-ST.—

The Faculty inform their professional brethren, and the public, that they have established a SURGERY, at the Old College, Queen-street, for the treatment of Negroes, which will continue in operation, during the session of the College, say from 1st November, to 15th March ensuing. The building appropriated to this object, has been put in complete repair, and is furnished with every necessary accommodation, such as bedding, fire places, &c. All patients will be placed under the charge of the Professor of Surgery, unless the owners select some other Physician, in which case their wishes will be complied with. Every attention will be paid to the sick; and every thing furnished them, which a due regard to their comfort and the nature of their diseases may render necessary, and every indulgence bestowed upon them, not incompatible with strict discipline.

The object of the Faculty, in opening this Surgery, is to collect as many interesting cases, as possible, for the benefit and instruction of their pupils—at the same time, they indulge the hope, that it may not only prove an accommodation, but also a matter of economy to the public. They would respectfully call the attention of Planters, living in the vicinity of the city, to this subject; particularly such as may have servants laboring under Surgical diseases. Such persons of color as may not be able to pay for Medical advice, will be attended to gratis, at stated hours, as often as may be necessary.

The Faculty take this opportunity of soliciting the co-operation of such of their professional brethren, as are favorable to their objects. All patients whom they may send to the Surgery, will be placed under their own charge, and at their exclusive disposal; and they may rely upon the faithful execution of their orders, as good and efficient nurses will be constantly in attendance.
