

For immediate release from Rick Quinn, Jr.:

May 16, 2017

After nearly four years of investigation, Mr. Pascoe has accused me of conduct that the supervisory authorities said was legal and proper. I have conducted myself in an honorable manner, and I look forward to clearing my family's good name.

The investigation has been unfair to me and to my family. From the day Mr. Pascoe began his investigation, there has been a constant flow of illegal leaks and false information. He believes his authority to be unlimited and unchecked.

My family and I have been targeted by Mr. Pascoe because of a political feud between the Republican Attorney General and a partisan Democrat who wants to be the attorney general. Since 2010, Mr. Pascoe has twice started campaigns to run against the Attorney General. It is my belief that this public fight between them is the real motivation since I have worked for the Attorney General's past political campaigns.

I have done nothing wrong, and I am asking for a speedy trial so this can be resolved as quickly as possible.
