The winningest active football coach in the Lowcountry remains in the Berkeley County School District but he has a new work address.

Longtime Timberland High School coach Art Craig informed the Wolves Wednesday morning he has accepted an opening with Charleston Academy, a new school one of his country roots.

“Being the Principal here of Charleston Academy is a dream come true for 10 reasons,” Craig said.

Craig compiled a 1-2-1 record against Hanahan going back to 1980 and 2-0-2 since 2004.

“We are extremely excited to have coach Art Craig take over the program at Hanahan High School,” Galus said. “He has over 200 career wins and multiple championships. That’s not by accident. He cares about kids and places them first in the classroom and on the field. We have no doubt he will do great things here. We are very fortunate to have several great candidates apply for the job.”

Wednesday afternoon, Craig addressed Ross Smith students and faculty before his departure.

Craig said he was “humbled and honored” to have the opportunity to coach in the offing.

“Dogs do something for kids (and adults) that no other forms of therapy can do — give non judgmental love and attention to those they visit,” Jane Hirsch said.

Hirsch said that she wanted to use her passion of therapy dogs to reach children and impact them in a meaningful way.

“Dogs do something for kids (and adults) that no other forms of therapy can do — give non judgmental love and attention without the words and the rantings of the other,” Inniss said.

“This not only entertains the kids,” Craig said. “I said if they did not have a chance, I would not have come here. I'm not telling you we're going to win a game... if I didn't think we could compete, I wouldn't have come here.”

New Hanahan High School football coach Art Craig has more than 220 wins and two state championships.
