Dear Madam Speaker:

After careful consideration, I have signed Bill 32-35 as Public Law 35-5.

Over the past few days, I have had the privilege of listening to our community voice both concerns and support for this legislation. Late last week, I hosted groups who needed a venue to be heard. There, I was able to listen to the individual perspectives on how cannabis can and has impacted each person’s life. The time spent truly influenced my consideration, more so than any article, journal, or statistical report that I have read in preparing for this decision.

There is no doubt that drug addiction is a real problem that plagues our island. Since the 1970s, we have participated in the “War on Drugs” in an effort to eradicate controlled substances from our community. Unfortunately, that method has done little other than to drive the black market further underground, all the while continuing to tighten its grip on our island. This law provides a more productive approach. It allows the government to regulate and insert controls so that adults
can consume cannabis products safely. More importantly, the law strengthens and finances our efforts to provide preventative education and effective treatments.

Employers, including the Government of Guam, will still require employees to abide by Drug-Free Workplace policies. To avoid any confusion, I have also issued Executive Order #2019-11, solidifying that the Government of Guam Drug Free Workplace Policy continues to prohibit the use of cannabis. Government employees, while acting in their official capacities, may not possess, consume or otherwise be under the influence of any derivation of cannabis.

Our youth shall not and will not be allowed to access cannabis. Those who provide access to anyone under the age of 21 shall be penalized. Our courts will continue to restrict persons on conditions of release, probation, and parole supervision from possession and use of cannabis. Only law-abiding adults – who already must make responsible decisions on whether or not to consume alcohol or tobacco products – will be afforded another choice: whether or not to consume cannabis products.

P.L. 35-5 is far from the perfect piece of legislation. Understanding that, my Administration is dedicated to not only fulfilling all of the requirements to regulate the cannabis industry, but also to actively work with this Legislature to ensure that the body of law surrounding safe adult consumption of cannabis remains current and relevant for our island. Si Yu’os Ma’ase!

Senseremente,

BE IT ENACTED BY THE PEOPLE OF GUAM:

Section 1. Legislative Findings and Intent. *I Liheslaturan Guåhan* finds that in the interest of enhancing revenue for public purposes with the creation of a new industry, enhancing individual freedom, and promoting the efficient use of law enforcement resources, the use of cannabis should be legal for persons twenty-one (21) years of age or older, and the production and sale of cannabis should be regulated for public health, welfare, safety, and taxation purposes.

It is the intent of *I Liheslaturan Guåhan* that the use, sale, and production of cannabis should be regulated so that:

(a) individuals will have to show proof of age before purchasing cannabis;

(b) selling, distributing, or transferring marijuana to individuals under twenty-one (21) years of age remains illegal, *except* that nothing in this Act is intended to or shall be construed as prohibiting or restricting the possession or medical use of cannabis by qualified patients as permitted by Public Law 32-237;

(c) driving under the influence of cannabis remains illegal;

(d) legitimate, taxpaying businesses will conduct sales of cannabis;

and

(e) cannabis produced and sold by regulated businesses will be tested, packaged, labeled, and tracked, subject to additional regulations to prevent access by individuals under the age of twenty-one (21) to ensure that consumers are informed and protected, and so that cannabis is not diverted outside of Guam to states or jurisdictions where it is illegal.

Provided further, that no such excise tax shall be levied upon cannabis intended for sale as medical cannabis.

(b) The Department of Revenue and Taxation shall establish procedures for the collection of all excise taxes levied.
(c) The Cannabis Control Board may exempt certain parts of the cannabis plant from the excise tax described in Subsection (a), or may establish an alternate rate or tax structure in accordance with the rules and regulations promulgated in accordance with this Chapter.

(d) There is hereby established a fund to be known as the Cannabis Fund which shall be maintained separate and apart from any other fund of the government of Guam and shall be administered by the Department of Administration. Fifty percent (50%) of the excise tax collected or received pursuant to § 8113(a) shall be deposited in the Cannabis Fund, and shall be annually allocated, and is hereby appropriated and shall be continued to be deemed appropriated as follows:

(1) twenty-five percent (25%) of the Fund to the Department of Public Health and Social Services; and

(2) twenty-five percent (25%) of the Fund for the following:
