

March 21, 2020

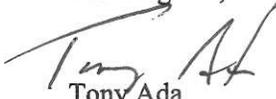

Congressman Michael F.Q. San Nicolas
United States House of Representatives
1632 Longworth House Office Building
Washington, DC 20515

Hafa Adai Congressman San Nicolas,

I would first like to acknowledge the receipt of your letter dated March 19, 2020. The Republican Party of Guam appreciates your efforts in seeking a bi-partisan collaboration to achieve a common objective for the residents of Guam. Just as we prioritized with H.R. 1365 and reaching out to GOP members of Congress to seek their support, we would certainly accept your request in providing the assistance to ensure that our island is included in any COVID-19 relief efforts, specifically with the discussions associated with per-citizen payments.

We are certainly encountering some tumultuous times, but with optimism and working in the spirit of collaboration, we will surely overcome this period of uncertainties. The economic recovery will certainly be timely, thus any efforts from the federal government would be most welcome and will take us steps forward. The leadership of the Republican Party of Guam will certainly meet at the earliest to plan our strategies so that we can assist you in your efforts. Thank you once again for reaching out.

Best Regards,

Tony Ada
Chairman
