

Release – Candidate for Attorney General – Douglas Moylan

Primary Election Results.

I *sincerely thank* all of my supporters who trusted me & voted yesterday, and who continue to believe in this experienced and proven Attorney General. Having now debated Leevin, I believe that he is incapable of serving as I did. He could not enforce the law in the face of gubernatorial resistance, including from his own cousin's administration as I did; win before the United States Supreme Court and at the same time protect you in your homes, whilst increasing child support collections.

Based upon the election results, I will not win in the General Election without the support of Gary Gumataotao's voters. Gary is a close friend of mine & I am presently communicating with him. Gary and I not only have decades of experience by ourselves, but have much more in common. I humbly ask those of you who voted for Gary to carefully look at my track record as an attorney compared against Leevin's. Also, to listen to Gary himself, a person you trusted, about who he believes would best serve you & which candidate he recommends to you. I also reach out to those of you who voted for Leevin and respectfully ask you to compare our track records for each of your own benefit.

I believe that a careful comparison between candidate Leevin Camacho and myself will show that Leevin lacks sufficient experience and accomplishments to best perform as Guam's Attorney General. Key differences that voters should scrutinize about Leevin include:

1. Leevin's lack of experience as an attorney of only 12 years with limited legal practice, compared to this candidate who has 28 years of practice, who personally tried and won both criminal and civil trials before juries; actually served 4 years as an AG; worked in all 3 branches of GovGuam; is licensed in California, Washington D.C. and on Guam; and won appeals before the Supreme Court of Guam *and* most especially U.S. Supreme Court;

2. Leevin's close ties to the Calvo-Tenorio Administration and whether he will in fact investigate and prosecute that gubernatorial administration, including for the Gov's. Office salary raises, the Lt. Gov's. gun-grabbing incident, the Chamorro Land Trust discrimination, as well as investigate and prosecute the Gov's. first cousins Eduardo "Champ" Calvo and John Calvo for the Y2K Port Lease and Mid-Pac's apparent tax evasion in not paying us the taxes due, respectively; and

3. Leevin's activist history and stance on issues that fractionalize Guam's community between Chamorros and other races, such as the Filipinos, Asians, Caucasians and others, versus actual service as an AG protecting all U.S. Citizens equally, regardless of your race, nationality or ethnicity, which I did during my 4 year term as Guam's first-elected AG.

In your life, you want the best attorney representing you, not a lawyer with little experience or lack of accomplishment. In the next 2 months, demand (i) that Leevin & my track records be compared point for point, and (ii) that we engage in public debates. Only then decide for yourselves about who you would want representing you in Court and is capable of winning your case.
