Dear Senator Ada,

The House, Senate, and Administration have all in various circumstances indicated a desire to incorporate a per-citizen payment ranging from \$1,000 per adult and \$500 per child as part of the COVID-19 relief efforts.

As our cooperation has rendered critical results for our people on the issue of War Claims, I again seek the support of the Republican Party of Guam to join me in ensuring that our island is fully included in this critical cash relief component.

My discussions thus far in the House are indicative of such inclusion; however, it is critical that the Republican controlled Senate and White House also support our inclusion. As such, I once again seek the assistance of the Republican Party to secure this resource for our island should it come to fruition for the rest of the country.

Thank you for your kind consideration. I very much look forward to working with the Republican Party once again to see this through.

Much Respect,

Michael F.Q. San Nicolas
