The Honorable Michael F.Q. San Nicolas
Member of Congress, Guam
U.S. House of Representatives
1632 Longworth HOB
Washington, D.C. 20515

Hafa Adai Congressman San Nicolas,

This is to acknowledge receipt and thank you for your letter seeking our support and assistance with HR 1365 relative to advancing the War Claims payments to survivors.

We agree this issue has strong bi-partisan support among both Republicans and Democrats on Guam. As GOP National Committeeman Juan Carlos Benitez mentioned in his April 15 letter to you, we have discussed this important and urgent issue with Ronna McDaniel, RNC Chairwoman during her visit to Guam in April. As a result, we have already been working on this important issue prior to receiving your letter and are glad to see that you share our concern in making sure this issue is addressed urgently especially as we commemorate the 75th Anniversary of our Liberation of our Chamorro people from Japanese forces this July. We have already been engaged with the RNC in working with key Republican Senators to be able to advance this measure successfully in the U.S. Senate.

We believe this long standing issue is larger than our partisan differences and the Republican Party of Guam is glad to assist with this effort.

Sincerely,

Jerry Crisostomo
State Chairman
