Subject: Withdrawal of Co-sponsorship on Bill 112-36

Dear Speaker Terlaje,

Håfa Adai! I hope this letter finds you well. I want to share with you that I initially co-sponsored Bill 112-36 because I agreed with you – we certainly need to make arbitration more accessible. Based on previous conversations, I supported Bill 112-36 because I was informed by you that you spoke to our island's medical community. However, I have received multiple calls from members of the medical community to the contrary. Understanding that there may be disagreements between the doctors, I requested a list of supporters from your office so I may hear their perspective. To date, I have yet to receive this list from your office.

Over the last few weeks, I have listened to our island's medical community – all of whom vehemently oppose Bill 112-36. While our island's frontline workers and health professionals have done their best to keep us healthy and safe, COVID-19 has exposed the shortcomings in our healthcare system. Our island is limited in the number of medical specialists. We cannot afford to further limit our island's medical options. Many of our residents who need medical care have had to find alternatives because they can no longer travel for these services.

In addition to meeting with doctors, I have also heard from a number of patients who have expressed their deepest concerns with Bill 112-36. Many of our residents have debilitating conditions and will be left with no access to a provider as they cannot afford to take the risk associated with treating them. Throughout the pandemic, we have emphasized that doctors should not choose who lives and who dies. However, with Bill 112-36, this is a choice they will have to make. For these reasons, I cannot in good conscience jeopardize the health and wellbeing of the People of Guam. As such, I respectfully request to withdraw my name as co-sponsor of Bill 112-36.

Stronger, *TOGETHER!*
