### **Acting Governor Tenorio Issues Statement on Marbo Cave**

*Hagåtña, Guam* - Today, Acting Governor Joshua Tenorio issued a statement regarding the status of Marbo Cave:

"I am troubled and appalled to see the current state of Marbo Cave, one of our island's most precious natural landmarks," said Acting Governor Tenorio. "While the citation issued by the Guam Environmental Protection Agency is a significant initial step towards addressing the issue, it is important that we move quickly and decisively to reverse the damage. It is critical that the entities responsible are held accountable for their reckless and negligent actions, and we must remain vigilant in our efforts to protect and preserve these invaluable land and water resources for the use of our people and future generations."
