CABRAS 1 ELECTRICAL PANEL CATCHES FIRE

At approximately 3:03 PM, today, Tuesday, 11 May 2021, an electrical panel at the GPA Cabras 1 Unit caught fire. The Cabras 1 Unit was immediately shut down.

The fire was reported to the Guam Fire Department. GFD is on-site and continues its review and investigation of the fire.

There were no injuries in this incident. All GPA Cabras power plant personnel were protected, accounted for and safe. There was no other interruption to any of GPA's operations.

"GPA will investigate the incident to determine exactly what happened to cause the fire," stated GPA General Manager John M. Benavente, P.E.
