Senator Therese M. Terlaje,

Håfa Adai, Esteemed Senators of the 37th Guam Legislature:

As a voting resident of Guam, I am writing to show my strong support for the Guam Medical Campus. The People of Guam desperately need and deserve a new hospital. Building a new hospital is the more affordable and better option, and any delays by the Legislature will threaten its future. This is a once-in-a-lifetime opportunity for Guam, and we need our island's leaders to work together for its success. Our quality of life depends on it, and I am writing to ask for your nonpartisan support in making this happen for our island.

Senator Therese M. Terlaje,

Håfa Adai, Senators of the 37th Guam Legislature:

I am a lifelong resident of Guam. I am a voter but more importantly I am a daughter, a mother and a grandmother. My family has utilized GMH for decades and we recognize that the facility is on its last leg. Residents, including my family, often prefer to travel elsewhere even for routine medical procedures. Guam deserves a state of the art medical campus and I implore you to help, not impede the opportunity before us.

This is a once-in-a-lifetime opportunity for Guam, and we need our island's leaders to work together for its success. You have the unique opportunity to be part of the answer to improved access to quality healthcare on Guam, which impacts our overall quality of life. My family and I beseech you and ask for your nonpartisan support. Please do not allow this property to go back to the military when it can benefit the public.

thank you

Melanie Brennan

I was in the PI for medical issue and was impressed with the amount of specialized medical practitioners there. Seen lots of Guamanians there and wished we have an accredited hospital facilities here in Guam to practice the healing art so we do not have to go off island for treatment. This new hospital will take us in a direction that will attract and entice these physicians and registered/allied health professionals to come here. Thank you and God Bless!

As a voting resident of Guam, I am writing to show my strong support for the Guam Medical Campus. As a family medicine obstetrician I returned home to bring quality healthcare to our island's people. But providers, medical professionals and the people of Guam are faced with run down government facilities. The People of Guam desperately need and deserve a new hospital now! Building a new hospital is the more affordable and better option, and any delays by the Legislature will threaten its future. This is a once-in-a-lifetime opportunity for Guam, and we need our island's leaders to work together for its success. Our quality of life depends on it, and I am writing to ask for your nonpartisan support in making this happen for our island.

It is not feasible to build a new hospital at Oka. There is insufficient room to accommodate the planned medical campus. The parking lot is already full.
