## Thank you to our local QC industrial sector.

From our local mom-and-pop machine shops to our Fortune 500 manufacturers, we've seen countless examples of our community rising to the challenge. We are constantly inspired by the ability of the Quad Cities to adapt, improvise, and overcome any obstacle.

We know it hasn't been easy, so thank you to everyone who has been working tirelessly in important sectors like hospitals & healthcare, critical manufacturing, agriculture & food processing, transportation & logistics, public utilities, and our other municipal, state, and federal organizations.

You've kept our community running, and we're proud of our small part in helping to keep you running.

We have held STRONG through COVID and have helped multiple families stay in their home safely- we have exercised the online shopping tool, and worked closely with our staff to secure advanced Infection Control and COVID- training.

We took the quarantine time to restrategize what our company can do to even better serve the community in the present and the future and we are very excited for where we are going.

We believe families can remain safe in their homes with our loving team, especially during these unpredictable times.

Safety for our customers and the general population is our main concern. Today's asphalt technology ensures rapid dispersal and drainage of surface water, which reduces water spray and improves driver visibility in wet conditions. Asphalt has low initial costs, lasts long, and is relatively easy to maintain, making it a better choice than other pavements with a greater value!

Protect your smooth and new asphalt with professional seal coating services from the Milan Blacktop Inc. crew! Spend some money now to save on costly repaving later.

Not only are asphalt construction projects less expensive and faster to install than concrete, but they are easier to repair and maintain as well!

Aesthetics, durability, and noise-reduction are some of the best advantages of asphalt. Being relatively easy and inexpensive to lay and repair, it should be the obvious choice for your project!

Choosing asphalt isn't the only secret to a long-lasting driveway—good workmanship plays a huge part too! Trust the pros at Milan Blacktop Inc. to install yours right.

Illinois Leading Lawyer Phil Koenig has been recommended by his peers as a Leading Lawyer in:

- Closely and privately held business law
- Commercial litigation
- Residential real estate law
- Personal tax law
- Trust, will and estate planning law

The distinction of being a Leading Lawyer has been earned by fewer than 5 percent of all lawyers licensed to practice law in Illinois. Phil has been recommended as a Leading Lawyer by his peers in Illinois every year since the survey first occurred in 2003.

Phil has a wide-ranging practice which makes him most valuable to his clients and often to peers who either lack his experience or limit their own practice and thus need Phil's insight. His clients often have legal issues that transcend or involve many of these areas of law, each of which Phil has experience and deep knowledge of:

- Agriculture law
- Association and non-profit/not-for-profit law
- Banking and financial institutions law
- Personal and commercial bankruptcy including Chapters 7, 11 and 13
- Civil appellate
- Construction law
- Creditor's rights and commercial collections law
- Elder law
- Foreclosure defense law
- Insurance coverage issue for claimants/insured individuals
- Legal fee disputes
- Personal injury and medical malpractice law for injured persons
- Real estate-related issues including land use, zoning, condemnation, and renter's and tenant's law
