

Situation Overview

Tropical Storm Ian

- This will be a prolonged impact of wind, rain, and elevated water levels.
- Impacts well away from the center of Ian will impact our area through the end of the week and into the weekend.
- A stalled front off the NC coast and strong high pressure to the north will help contribute to the impacts across Eastern NC well east of the track of Ian.

NOTE: Do not focus on the exact track.
Impacts can occur well outside the area enclosed by the cone.
