Parenting in a Pandemic

Are your kids feeling

Anxious? Bored? Tempted?

HELP PREVENT YOUTH DRUG & ALCOHOL USE

TALK to teens about the negative impacts of drug & alcohol use, including the effects on the developing brain. Help them find healthy ways to deal with stress & boredom.

TRACK Count prescriptions, track amounts of alcohol & cannabis, and don’t be afraid to ask if something is missing.

SECURE alcohol, medication and cannabis in a secure place to reduce temptation.

To find out more about preventing the use of alcohol, cannabis and other drugs among our youth, visit: www.WindhamPartnership.org
